ABSTRACT

A handbook to assist states in fulfilling requirements of Public Law 94-142 to provide a Comprehensive System of Personnel Development (CSPD) for special education staff is presented. The handbook is intended to help writers develop, review, update, and implement the CSPD, which is one section of the state plan submitted to the federal government. The workpages of the handbook are divided into eight sections, each of which contains the appropriate regulation, suggestions for writing the section, possible resources, and corresponding items from the "OSE Reviewer's Guide," on which the evaluation of the state's plan is based. The eight sections of the plan cover the following: the introduction, groups participating in the development and revision of the CSPD; the annual assessment for determining personnel training needs; the inservice and preservice plans; efforts to disseminate and promote adoption of information and practices in personnel development; the CSPD evaluation; and technical assistance offered by the state education agency (SEA). Appended materials include the "OSE Reviewer's Guide," sample data tables and instructions, a list of primary CSPD persons in SEAs, a list of groups who may participate in CSPD development, several sample needs assessment and inservice questionnaires, examples of inservice training plans, information on college special education programs, and a list of agencies providing technical assistance. ACKNOWLEDGMENTS

The activity which is the subject of this report was initially supported by Grant No. G007602997 (Project No. 451BH80023) from the Division of Personnel Preparation, Bureau of Education for the Handicapped, U. S. Office of Education, Department of Health, Education, and Welfare. (Project Officer at that time was Dr. Herman Saettler.) The current Grant No. is G007900932 (Project No. 451BH00024) from the Division of Personnel Preparation, Office of Special Education, U. S. Department of Education. (Project Officer is Mr. Joseph T. Gilmore.) The opinions herein do not necessarily reflect the opinion or policy of the U. S. Department of Education, and no official endorsement by the U. S. Department of Education should be inferred.

The revised Handbook is the product of all who have used it and communicated to the Project staff and consultants their ideas and suggestions toward the update of the publication. Ms. Jerrie Ueberle, Arizona Department of Education (on leave) and Dr. Janice R. Duncan, Project Research Associate, had major responsibilities for updating and expanding the initial document! Finally, Ms. Rosemary Williams and Ms. Donna Ruder of the Project staff are acknowledged for their support in finalizing the Handbook for printing.

* * * * *

The Project is indebted to many individuals for their expertise, time and effort in the development of the initial Handbook. Individuals in OSE who served on the interdivisional CSPD Task Force included both Division of Personnel Preparation and Division of Aid to States staff members. From the Division of Personnel Preparation, Task members were: Dr. James Siantz, Dr. George Haggerty, Dr. Phillip J. Burke and Dr. Sara Conlon. (Drs. Burke and Conlon have since left the Federal Government). Task Force members from the Division of Aid to States were: Dr. William Halloran (Task Force Chairman), Ms. Marilyn Semmes, and Ms. Ronnie Hoffman.

The initial Handbook also represented the expertise and energy of the following persons: Mr. E. Hayes Prothro, Texas Education Agency; Ms. Mary Ann Evan, Oregon State Department of Education; Mr. Joseph T. Gilmore, New York State Department of Education; Ms. Jerrie Ueberle, Arizona State Department of Education; Mr. Fred J. Baars, North Carolina State Department of Public Instruction; Mr. Stephen Sauer, Consultant/Planner; Dr. Jim George, Consultant; and Ms. Nancy Byfield, Wisconsin State Department of Public Instruction. (Mr. Prothro, Ms. Evan, and Mr. Gilmore are no longer with their respective State education agencies.) Also, Mr. Dan Cline of the National Inservice Network provided some very useful information relative to the Handbook revision.

FOREWORD

On November 29, 1975, Public Law 94-142 became the "Law of the Land" relative to the concept of "free appropriate public education" for our Nation's handicapped children. Most certainly, every section of this Act is essential in terms of the full implementation of its provisions. To be sure, however, the personnel development sections [Sections 613(a)(3) and 614 (a)(1)(c)(i)] establishing a "comprehensive system of personnel development" (CSPD), might be viewed as providing many of the "quality control" ingredients to the Act. It is almost axiomatic that without well-qualified teachers and other personnel the mandate of providing appropriate education to all handicapped children will never be achieved. Although some sections of Public Law 94-142 may insure "quantity" of instruction, the CSPD section of the Act has the potential for insuring "quality" of instruction.

This Handbook was initially designed to serve as a resource to State Education Agencies as they become increasingly involved in the development, review, updating, and implementation of the CSPD section of the State Plan. It was developed to assist the individuals in each State Education Agency who have responsibility for writing the CSPD section of the State Plan. The intent of this updated version of the Handbook has been increased in scope based on the suggestions and contributions of its users during the first year of dissemination. Feedback from the field has indicated that the Handbook in addition to being a resource for CSPD writers, may serve as a teaching and training document for CSPD committees, as a guide for administrators in developing programs at the local level, and as a handbook for university staff and other potential trainers and developers of training. It is hoped that the use of the Handbook in this manner will promote the understanding, acceptance, and fulfillment of CSPD.

This document is one vehicle for encouraging and supporting, individually and collectively, the efforts of all individuals working toward the improvement of educational services to children through the development of all personnel. It is our hope that this Handbook will serve as an "action document" that will give direction to an entire State's training efforts. To this end, this Handbook has been developed.

Evaluation Form

The value of a handbook such as this is gauged by its actual utility in the field. Only the user can adequately evaluate its worth. To improve this document, input from the users is sought. It is recognized that the needs of the users vary as do the needs of the individual states; however, a broad range of input can help determine what aspects are most beneficial for the user of this handbook. Any suggestions regarding format, examples, etc., should be included on this form and returned. Please include any materials which you feel should be added to the appendices.

WASHINGTON, D.C. 20202

April 16, 1979

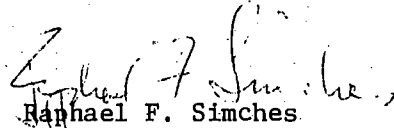

Dear Colleague:

Public Law 94-142 calls for each State's Annual Program Plan to describe its program and procedures for the development and implementation of a comprehensive system of personnel development (CSPD). The broad requirement of the Act is made specific in the rules and regulations which detail information for the State and involved agencies to understand their responsibilities in achieving compliance. The development of regulations for implementing Public Law 94-142 is an evolutionary process which will continue over a period of several years. This process, and the dynamic, vital nature of the plan, are clearly evident in the CSPD sections of the Rules and Regulations.

With the full concurrence and support of Edwin W. Martin, Deputy Commissioner, Bureau of Education for the Handicapped (BEH), the Division of Assistance to States (DAS) and the Division of Personnel Preparation (DPP) are jointly committed to a sound and systematic review of each State's activities in both planning and implementing the CSPD. For it is through the CSPD section of the Annual Program Plan that each State Educational Agency can ensure that all personnel necessary to carry out the purpose of the Act are appropriately and adequately trained, and that the most significant and promising educational information and practices can reach each handicapped child.

This handbook can be a valuable tool in planning and carrying out each State's CSPD. It offers assistance relative to the development, review, updating and implementation of the CSPD. The Bureau of Education for the Handicapped appreciates the work of those many individuals who have contributed to the development of this document. We sincerely hope that each user of this handbook will find it helpful in your work. We invite you to take up its invitation to make your own individual contribution to the ongoing, evolutionary development of the handbook. Federal/state/local partnerships are necessary if the rich promise of education for every handicapped child is to become reality. In the Bureau, through the processes of review and technical assistance, we pledge our continued best efforts to make CSPD truly effective. We are proud to be partners with you in these efforts.

INFORMAL LETTER TO STATE DIRECTORS OF SPECIAL EDUCATION
AND STATE PART B COORDINATORS

Subject: CSPD Section of Fiscal Year 1981-1983 State Plan

BACKGROUND

One of the principal means to assure that all handicapped children receive a free appropriate public education is the necessary training of special education teachers, regular education teachers and other personnel necessary to provide special education and related services. Although states have demonstrated significant advances in personnel training, data cited in the Interim Report to Congress (August, 1979) indicate that:

Data from the National Center for Education Statistics Survey of Recent College Graduates in 1975 show that approximately one-third of the teachers employed yearly by local school districts to teach the handicapped have not been trained as special educators.

Annual Program Plans from the states indicate that a lack of inservice training, particularly of teachers of children of low-incidence handicapping conditions, continues to limit the ability of state and local education agencies to offer a full continuum of alternatives to all handicapped students.

The provisions of P.L. 94-142 require that each state develop and implement a Comprehensive System of Personnel Development (CSPD) as part of the State Plan (formerly Annual Program Plan) submitted under the Act. The Office of Special Education considers the CSPD to be the principal vehicle to plan for and implement the preparation of teachers and other support personnel required for the implementation of the Act. During the coming year states will be given the opportunity to implement their three year CSPD for the first time.

The purposes of this letter are: 1) to advise the states that the Office of Special Education intends to give particular attention to the CSPD components of State Plans and to examine carefully the implementation; 2) to continue to give guidance to the states on how they may comply with the intent of the law; 3) to offer assistance in the development of the CSPD to solicit your comments and advice on this matter.

GUIDANCE FOR CSPD DEVELOPMENT

I urge you to give careful attention to those parts of the regulations governing the CSPD as contained in CFR 45 121a.380 through 121a.387. Of particular significance are the requirements for participatory planning, needs assessments, inservice training, preservice training, dissemination, the adoption of promising practices, evaluation, and the provision of technical assistance to the LEAs.

Specifically, in implementing the CSPD you should give attention to:

- ° Involvement of teachers at the local, regional and state levels in the development of the CSPD. Since teachers are the immediate beneficiaries of both preservice and inservice training and education, it is important that teachers help plan and implement personnel development.
- ° Involvement of regular and special educators. The intent of the law is to make a free appropriate public education available in the least restrictive environment. The CSPD should reflect the participation of both regular and special education teachers as well as other personnel required for the provision of related services.
- ° The term "staff" (CFR 45 121a.382). The term includes teachers, both regular and special education and others responsible for the provision of "special education and related services."
- ° Implementation. One of the principal means for implementation of the CSPD is the use of Title VI-B monies as discretionary funds to support personnel development, dissemination, etc.

ASSISTANCE AND FURTHER ACTION

In support of this effort the Office of Special Education will make available a manual of assistance entitled, Comprehensive System of Personnel Development,* on request. There are, as well, a number of technical assistance resources available to States with specific problems or objectives. A list of these technical assistance providers is attached.

In addition to these resources the Office of Special Education will identify current examples of teacher roles in planning for training and involvement of regular and special educators in the development of the CSPD. We shall

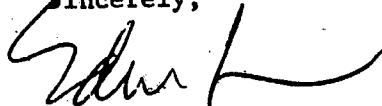

*It is to be noted that the publication referred to above and this Handbook are, in fact, the same document.

Page 3

disseminate these examples to the States and others requesting these materials as they come to our attention. We intend to make the first distribution no later than August 15, 1980. If you feel that you have a useful example or approach please forward it to us in order that we may share it with other states.

We are also seeking your guidance as to how we may support your efforts in the development of the CSPD. Please advise us of activities which you think would contribute to successful CSPD development.

Sincerely,

Edwin W. Martin
Acting Assistant Secretary for
Special Education and Rehabilitative
Services

PREFACE

The purpose of this Handbook is to assist states in fulfilling the requirement of a Comprehensive System of Personnel Development (CSPD) mandated under Public Law 94-142, Education for All Handicapped Children Act of 1975. The CSPD is one section of the State Plan submitted to the United States Department of Education, Office of Special Education, under the provisions of this Act.

This Handbook is intended for use by those persons in each state who are involved in developing, reviewing, updating, and implementing the CSPD. It has been designed to serve as a resource and a workbook for writing and reviewing a State's CSPD plan. Ideally, the person(s) who prepares the CSPD section of the State Plan will be knowledgeable about special education and actively involved in personnel development activities. Pages x and xi contain suggestions for skills and tasks which may be useful considerations for the state education agency (SEA) person assigned to develop and implement the CSPD.

The Handbook addresses the Rules and Regulations of Public Law 94-142 dated August 23, 1977, particularly sections 121a.380 through 121a.387 (see Appendix I). It is important to note that this Handbook incorporates and reflects the current OSE Reviewer's Guide which is part of the review process of the CSPD section of the State Plan. The sequence of this Handbook follows that of the OSE Reviewer's Guide, a copy of which is included as Appendix II. (It is to be noted that a revision of the OSE Reviewer's Guide to reflect changes required by EDGAR is currently under review.)

There are three sections in this Handbook: General Information, Workpages, and Appendices. General Information includes introductory comments, description of format, suggestions for writing the CSPD, and information on data tables. The Workpages include the Rules and Regulations for the CSPD, OSE Reviewer's Guide, Writer's Guide, and Writer's Worksheet. Appendices include copies of regulations, data tables, and sample documents made available by SEA and university personnel who found them to be useful. Color-coded Appendices contain both explanatory information and examples of CSPD products and practices which may assist in the preparation of the state's plan.

GENERAL INFORMATION

The Workpages in this Handbook are divided into eight sections corresponding to the sequence of the OSE Reviewer's Guide. These eight sections are as follows:

- A. Introduction
- B. Input and Implementation
- C. Needs Assessment
- D. Inservice
- E. Preservice
- F. Dissemination and Adoption
- G. Evaluation
- H. Technical Assistance

Each section includes the appropriate regulation(s); corresponding items from the OSE Reviewer's Guide; the purpose of the section; suggestions for writing this part of the plan; and possible resources. A blank, fold-out, perforated worksheet is included in each of the eight sections to permit the user of the Handbook to make notations. Pages xiv-xvii illustrate the format of the workpages with an explanation of each part.

Looseleaf pages have been used for printing the Handbook so that revisions can be made easily. The intention is to make the Handbook responsive to the anticipated changes that may occur as a result of the processes of change and growth in CSPD. The preparers of this Handbook recognize that changes in its future content will be both necessary and desirable. The users of the Handbook are invited to help in this process. Suggestions for revisions, requests for expansion, constructive criticism, and sharing of resources are encouraged. A form to be used for this purpose is found on the page immediately preceding the Table of Contents. As indicated in the letter from the Bureau of Education for the Handicapped, Divisions of Personnel Preparation and Assistance to States, increasing attention will be given to insure a sound and systematic review of each state's activities in the planning for and implementation of the Comprehensive System of Personnel Development.

Writing the Comprehensive System of Personnel Development (CSPD)

This Handbook is intended to assist the writer in developing, reviewing, updating and implementing the CSPD. Prior to beginning the writing task, however, the following points should be considered:

1. The composition of the audience to whom the plan is directed should be determined. While many of the plan's readers will be involved in personnel development activities within the state, others (federal reviewers and monitors, members of the general public, and legislators, for example) will not. It is important to include enough background and detail to give these readers a clear picture of what is happening in the state. Information shall be included on related personnel development activities, such as federally funded projects (VI-D) or the comprehensive personnel development plan required by Title V of the Elementary and Secondary Education Act.

2. On the other hand, unnecessary detail should be avoided; length is not synonymous with quality. Charts, tables, and other graphic methods can be effective tools for summarizing and communicating certain information.
3. The plan must reflect reality. Documentation may be included in some sections of the CSPD; however, regardless of whether or not it is included in the plan itself, such evidence must be available in the state education agency and included in the Annual Performance Report. OSE staff will make site visits to determine whether the CSPD is actually implemented.
4. It is important to remember that the CSPD is meant to be a tool for improving services to handicapped children. While there are certain requirements which must be met in the development of the CSPD, the plan must also be useful to the state. It should be written so that it can communicate to others within the state and so that it can guide the implementation of the state's personnel development plan.

CSPD Development and Implementation Skills

The state education agency (SEA) person assigned to develop and implement the CSPD will need a variety of skills. A list of considerations is included to assist in identifying some of these skills. This list can also be used to determine whether inservice training may be needed for the person who prepares the plan.

Considerations:

1. First, the task should be identified. In order to do this, the person assigned to the task must have:
 - a. a clear understanding of the task;
 - b. an awareness of what presently exists; and
 - c. an understanding of the existing lines of authority.
2. The task should be shared with persons in other agencies and organizations; therefore, the person assigned to this task must be able to:
 - a. establish trust;
 - b. solicit involvement;
 - c. share ownership in the project;
 - d. reinforce participants; and
 - e. recognize and explore incentives for participants.
3. In order to use the information gained from other agencies and organizations, the person assigned to the task must be able to:
 - a. negotiate and coordinate input from participants; and
 - b. define and focus on issues, problems, and achievements.

4. The person assigned to the task must have certain process skills such as the ability to:
 - a. communicate;
 - b. persist;
 - c. persuade; and
 - d. adapt.
5. The person assigned to the task must be able to recognize and address the project as it actually is, not as it was intended to be.
6. The person assigned to the task must be able to recognize the need for and be able to develop avenues of expansion and new models when needed.
7. Finally, written reports must be prepared; thus, the person assigned to the task must be able to organize ideas and express them clearly in writing.

Personnel Data Requirements for the CSPD

Data requirements are of two types. First, data on personnel needs and on projected inservice training activities must be included in the State Plan. In addition, the *Annual Performance Report*, which is completed at the end of the year, must include data on the personnel employed and on the training that was actually carried-out during the year.

CSPD tables required for the State Plan are Tables 1A, 1B, and 2. Copies of these tables and the instructions for them are included as Appendix III.

A variety of strategies and sources may be used for collecting data on current and projected supply and demand for special education and support personnel. OSE recognizes that states vary substantially in terms of their data collection and processing capabilities. Some data can be collected only on a voluntary basis in certain states. States should not rely exclusively on child count data for projecting personnel needs. Projections should be based on state prevalence figures, not national figures.

Types of data which may be reviewed in developing a statement of personnel needs include:

- . general and special education enrollment;
- . child find and child census data;
- . number of personnel currently employed;
- . attrition rates for education personnel;
- . LEA budget plans which include projected new positions;
- . existing vacancies;
- . estimates of currently unemployed qualified personnel;
- . results of SEA monitoring activities;
- . results of due process hearings; and
- . follow-up data on training program graduates.

Other economic and political variables, such as state and federal policies and availability of funds, should be considered. It is also important to include as data sources all public and private agencies involved in the education of handicapped children.

The CSPD should include both federal tables and statements of state training priorities. It may be necessary to translate data from state personnel categories to correspond with federal tables. In any case, the tables should reflect actual numbers of personnel employed and needed within the state, even if state categories are different.

WORKPAGE FORMAT

Rules and Regulations

This section contains the appropriate article(s) from the Rules and Regulations of Public Law 94-142.

NOTE:

The sequence of the Rules and Regulations, as they appear in each section of this Handbook, is not the same as the published version of August 23, 1977. Rather, the sequence that appears here corresponds to the referenced articles in the OSE Reviewer's Guide.

xiv

WORKPAGE FORMAT

OSE Reviewer's Guide

Items from the OSE Reviewer's Guide, on which evaluation of the plan is based, are listed here in the order in which they appear in the guide.

WRITER'S GUIDE

The general purpose of this section is suggested here, together with a brief explanation where appropriate.

This section also lists some approaches to meeting the requirements of the article(s). These are intended to assist the writer in identifying the activities which fulfill this purpose in the state. These approaches

A. Introduction

COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT

121a.380 Scope of system.

Each annual program plan must include a description of programs and procedures for the development and implementation of a comprehensive system of personnel development which includes;

(a) The inservice training of general and special educational instructional, related services, and support personnel;

(b) Procedures to insure that all personnel necessary to carry out the purposes of the Act are qualified (as defined in 121a.12 of Subpart A) and that activities sufficient to carry out this personnel development plan are scheduled; and

(c) Effective procedures for acquiring and disseminating to teachers and administrators of programs for handicapped children significant information derived from educational research, demonstration, and similar projects, and for adopting, where appropriate, promising educational practices and materials developed through those projects.

(a) As used in this section "inservice training" means any training other than that received by an individual in a full-time program which leads to a degree.

(3) Specify the groups requiring training (such as special teachers, regular teachers, administrators, psychologists, speech-language pathologists, audiologists, physical education teachers, therapeutic recreation specialists, physical therapists, occupational therapists, medical personnel, parents, volunteers, hearing officers, and surrogate parents).

OSE REVIEWER'S GUIDE

A. Introduction (Overview of State procedures used to develop and implement the CSPD)

1. Scope of System

- a) Establishes State procedures to insure that all personnel necessary to carry out the purposes of Public Law 94-142 are qualified and that activities sufficient to carry out the personnel development plan of the State are scheduled.
- b) Establishes State procedures for acquiring and disseminating to teachers and administrators of programs for handicapped children significant information derived from education research, demonstration, and similar projects, and for adopting, where appropriate, promising educational practices and materials developed from those projects.

2. Inservice

- a) Describes programs and procedures for the establishment of inservice training, defined as any training other than that received in a full time program which leads to a degree.
- b) Provides for the inservice training of the following groups of general and special educational instructional, related services, and support personnel such as:
 - special education instructional personnel
 - regular teachers
 - administrators
 - psychologists
 - speech-language pathologists
 - audiologists
 - physical education teachers
 - therapeutic recreation specialists
 - physical therapists
 - occupational therapists
 - medical personnel
 - parents
 - volunteers
 - hearing officers
 - surrogate parents
 - vocational educators
 - paraprofessionals (teachers aides)
 - educational diagnosticians

WRITER'S GUIDE

A. Introduction

Purpose

The purpose of this section is to provide an overview of the procedures the state used to develop and implement the CSPD. It is a description of how the state has conceptualized the training and personnel development process as a vehicle for increasing the quality of services to children. This section must include a description of the procedures used to do the following:

- insure that all personnel necessary to carry out Public Law 94-142 are qualified;
- insure that sufficient activities are scheduled to carry out the personnel development plan;
- acquire and disseminate significant information about personnel development and adopt promising practices and materials, where appropriate;
- disseminate this information to teachers and program administrators; and
- specify the groups, by category, requiring training.

WRITER'S GUIDE (Cont.)

Suggestions

This section provides the opportunity to outline the overall procedures used in implementing the CSPD. Each topic in the OSE Reviewer's Guide should be addressed. A succinct narrative or outline form is recommended. Later sections will allow each major topic to be presented in greater detail. Once the total plan is conceptualized the writer may choose to write the introduction following the completion of the other sections.

The introduction might include broad goals for the CSPD, relevant state policies or regulations which support or impede the progress of the plan, and information on other groups, organizations, and systems which have similar goals and activities.

This section can also address the procedures used to acquire the data to be included in Table 2 (Appendix III), the summary of inservice activities planned for the coming year.

"Qualified" as it is used in this law means licensed, certified, or registered by the state. "Inservice" is defined as any training other than that received by an individual in a full-time program that leads to a degree.

Included in this introductory section should be a provision for the establishment of inservice training with a restatement of the above inservice definition. Inservice training may include more than traditional skill acquisition; it may be designed to expand and develop personnel in new and innovative areas focusing on increasing the quality of educational services. The opportunity is available to design a plan that will impact systemwide and be a positive influence on the total educational community.

This section should also note that the establishment of inservice training provides for training of both general and special educational instructional groups, related services, and support personnel. These personnel categories should be delineated as they are in the OSE Reviewer's Guide.

* * * * *

Resources

- Appendix A-1: Policies and Administrative Procedures (a sample set of state-level procedures related to the CSPD)
- Appendix A-2: List of Primary CSPD Persons in State Education Agencies (a list of people involved in cooperative personnel planning throughout the nation)
- Appendix A-3: Target Populations (one state's list of personnel categories to be trained)
- Appendix A-4: CSPD Process Chart (one state's management chart)

WRITER'S WORKSHEET

Rules and Regulations

B. Input and Implementation

(b) The annual program plan must describe the nature and extent of participation under paragraph (a) of this section and must describe responsibilities of the State educational agency, local educational agencies, public and private institutions of higher education, and other agencies;

(1) With respect to the comprehensive system as a whole, and

(2) With respect to the personnel development plan under 121a.383.

(20 U.S.C. 1412(7)(A); 1413(a)(3).)

121a.383 Personnel development plan.

Each annual program plan must; (a) include a personnel development plan which provides a structure for personnel planning and focuses on preservice and inservice education needs;

121a.381 Participation of other agencies and institutions.

(a) The State educational agency must insure that all public and private institutions of higher education, and other agencies and organizations (including representatives of handicapped, parent, and other advocacy organizations) in the State which have an interest in the preparation of personnel for the education of handicapped children, have an opportunity to participate fully in the development, review, and annual updating of the comprehensive system of personnel development.

OSE Reviewer's Guide

- B. Input and implementation (Description of the process to insure participatory planning and the results of the process, i.e., the nature and extent of broad-based participation in the development, review and annual updating of the CSPD.)
3. Describes how input from all public and private IHE's, other agencies and organizations, and representatives of parents' handicapped organizations has been obtained.
- a) The nature and extent of participation is described, indicating:
- i) participation in development
 - ii) review
 - iii) annual updating
4. The responsibilities of SEA's, LEA's, IHE's, and other agencies related to the development of the CSPD are described:
- a) relating to inservice
 - b) relating to preservice

(Note: A simple matrix or table with some narrative could convey the various responsibilities of the SEA, LEA's and IHE's.)

WRITER'S GUIDE

B. Input and Implementation

Purpose

The purpose of this section is to describe the participation of all of the institutions, agencies, groups, and organizations which are involved in the development, review, and updating of the CSPD. It appears that the intent of this article is to insure that those who are "planned for" have an important part in the development of that plan. Documentation of participation in the planning process and efforts made to involve appropriate constituencies should be described.

The description includes the methods used to insure broad-based input, an account of the participation actually achieved, and an outline of the responsibilities of the various agencies related to the development of the CSPD. Documentation should be made throughout the process.

Suggestions

The first component of this section describes strategies used to insure participatory planning. Suggested approaches include:

- advisory committees, including existing cooperative manpower planning groups, the state's Advisory Committee on Special Education, and other groups that have an interest in personnel preparation;
- public hearings (formal and informal) as part of the State Plan review process;

WRITER'S GUIDE (Cont.)

- . field-based task forces charged with developing or reviewing certain aspects of the CSPD;
- . surveys and questionnaires;
- . meetings, conferences, and seminars designed to elicit input on specific subcomponents of the CSPD; and
- . providing information through existing dissemination systems.

Whatever strategies are used, provisions must be included for feedback to those providing input. This serves to insure further involvement and promotes refinement and enrichment of ideas.

The second component of this section describes the nature and extent of participation achieved, i.e., the results of the above strategies. This process promotes ownership and can pay dividends when implementing the plan. The analysis will include such things as topics or sections on which input was received, the types and numbers of persons or groups providing input, summaries of meetings conducted, and results of hearings and surveys. It is important to note that input must be elicited not only for the initial development of the CSPD, but also for the annual review and update of the plan.

A description of the responsibilities of the state education agency, local and intermediate education districts, institutions of higher education, and other agencies and groups related to personnel development constitutes the third component. A table or matrix may be useful in communicating the various responsibilities. The unique characteristics of the state which affect the assignment of various responsibilities are to be explained. For example, information pertaining to certain statutory or policy requirements regarding the purpose, scope, and function assigned to various agencies should be provided. This information will help the reviewer understand the situation in the state.

* * * * *

Resources

- Appendix B-1: Groups to Participate in CSPD Development (suggestions for types of groups to be involved)
- Appendix B-2: Sample Charts (organizational and flow charts from three states)
- Appendix B-3: Worksheet for Input on the CSPD (an example of a form for soliciting input)
- Appendix B-4: Publications of the Cooperative Manpower Planning Project (suggested references on cooperative personnel planning)
- Appendix B-5: Dr. Jasper Harvey's "Dear Colleague" Letter (an excerpt from a letter regarding the implementation of the CSPD)
- Appendix B-6: Criteria for Selecting Committee Members (selection criteria used by one state)
- Appendix B-7: Form for Documenting Participation in Planning (sample form used by one state)

WRITER'S WORKSHEET

Rules and Regulations

C. Needs Assessment

(b) Each annual program plan must provide that the State educational agency:

(1) Conducts an annual needs assessment to determine if a sufficient number of qualified personnel are available in the state; and

(b) Describe the results of the needs assessment under 121a.382(b)(1) with respect to identifying needed areas of training, and assigning priorities to those areas; and

(c) Identify the target populations for personnel development, including general education and special education instructional and administrative personnel, support personnel, and other personnel (such as paraprofessionals, parents, surrogate parents, and volunteers).

(f) Each annual program plan must:

(1) Describe the process used in determining the inservice training needs of personnel engaged in the education of handicapped children;

(2) Identify the areas in which training is needed (such as individualized education programs, non-discriminatory testing, least restrictive environment, procedural safeguards, and surrogate parents);

(3) Specify the groups requiring training (such as special teachers, regular teachers, administrators, psychologists, speech-language pathologists, audiologists, physical education teachers, therapeutic recreation specialists, physical therapists, occupational therapists, medical personnel, parents, volunteers, hearing officers, and surrogate parents);

OSE Reviewer's Guide

C. Needs Assessment

5. An annual needs assessment has been conducted.
6. The needs assessment process is described.
7. The sources of information are indicated, and the target populations for personnel development are identified, including:

- | | |
|---|---------------------|
| - special education instructional personnel | - parents |
| - general education instructional personnel | - volunteers |
| - administrative personnel | - support personnel |
| | - surrogate parents |
| | - paraprofessionals |

Other populations may be included such as:

- | | |
|--------------------------------|--------------------------------------|
| - physical therapists | - audiologists |
| - medical personnel | - physical education teachers |
| - occupational therapists | - therapeutic recreation specialists |
| - psychologists | - vocational educators |
| - speech-language pathologists | - educational diagnosticians |
| - hearing officers | - others |

8. The process used to collect the needs assessment data is described.
9. The information collected includes:

a) The ~~number~~ of qualified personnel available, such as

- | | |
|---|---|
| i) general educational:
instructional
support personnel | ii) special educational:
instructional
related service providers
support personnel |
|---|---|

b) The number of new personnel needed, such as

- | | |
|---|---|
| i) general instructional:
instructional
support personnel | ii) special educational:
instructional
related service providers
support personnel |
|---|---|

c) The number of personnel requiring retraining, such as

- | | |
|----------------------------------|-----------------------------------|
| i) general educational personnel | ii) special educational personnel |
|----------------------------------|-----------------------------------|

d) The content areas in which training is needed

e) The groups requiring training from the following listing, such as

- | | |
|---|-------------------------------------|
| - special education instructional personnel | - occupational therapists |
| - regular teachers | - medical personnel |
| - administrators | - parents |
| - psychologists | - volunteers |
| - speech-language pathologists | - hearing officers |
| - audiologists | - surrogate parents |
| - physical education teachers | - vocational educators |
| - physical therapists | - paraprofessionals (teacher aides) |
| | - educational diagnosticians |

WRITER'S GUIDE

C. Needs Assessment

Purpose

The purpose of this section is to document and describe the annual process for determining personnel training needs. The section must indicate the sources from

WRITER'S GUIDE (Cont.)

which the information was obtained, the methods used to collect the data each year, personnel training needs identified by the needs assessment. The needs assessment must identify the number of new personnel needed to implement Public Law 94-142. It must also indicate the number of personnel requiring retraining, the content areas for retraining, and the target groups to be trained.

Suggestions

This section brings into focus the extent to which training and development activities (preservice and inservice) are needed. It also provides data for establishing priorities among areas of need and for making decisions about the amount of training and retraining to be undertaken for the coming year.

The process for needs assessment may include both formal and informal techniques which are responsive to the geographic, personnel, and organizational differences within a state. No single instrument or procedure may be viewed as appropriate for collecting information from the broad-based population and content areas which must be addressed.

Some suggestions for gathering the information include:

- . personnel projections from LEA applications for Public Law 94-142 funds;
- . routine personnel reports prepared by LEAs;
- . analysis of child-find and census data to determine changing student needs;
- . findings from compliance monitoring of LEAs;
- . surveys to determine positions which LEAs find difficult to fill;
- . data on numbers and qualifications of graduates of personnel training programs;
- . information on numbers of personnel initiating, renewing, or dropping certification, licensing, or registration; and
- . study of competencies required for personnel to implement Public Law 94-142.

The list is not exhaustive; consider using other existing data sources and structures whenever possible and appropriate. Identify what is available and useful before designing and initiating additional procedures.

Personnel titles vary among agencies. It is important to collect data according to the state's required categories and to relate them to the personnel categories required by OSE. The personnel needs assessment is to serve the state in carrying out the CSPD; it should be reported in a manner that is clear to any reader of the CSPD as well as the reviewer. Tables 1A and 1B (see Appendix III) are used to summarize the state's personnel needs. A narrative description may also be included.

* * * * *

Resources

- Appendix C-1: Personnel Needs Summary (sample forms for collecting and displaying personnel needs data)
- Appendix C-2: Private School Report (a sample form for collecting personnel data)
- Appendix C-3: Content Area Needs Assessment Instruments (sample forms from several states)
- Appendix C-4: Summarization of Personnel Polled and Prioritization of Training Needs
- Appendix C-5: Suggestions on Conducting a Needs Assessment

WRITER'S WORKSHEET

Rules and Regulations

D. Inservice

(2) Initiates inservice personnel development programs based on the assessed needs of State-wide significance related to the implementation of the Act.

(3) Specify the groups requiring training (such as special teachers, regular teachers, administrators, psychologists, speech-language pathologists, audiologists, physical education teachers, therapeutic recreation specialists, physical therapists, occupational therapists, medical personnel, parents, volunteers, hearing officers, and surrogate parents).

(2) Identify the areas in which training is needed (such as individualized education programs, non-discriminatory testing, least restrictive environment, procedural safeguards, and surrogate parents):

(f) Each annual program plan must:

(1) Describe the process used in determining the inservice training needs of personnel engaged in the education of handicapped children:

(4) Describe the content and nature of training for each area under paragraph (f) (2) of this section:

(c) Each annual program plan must include the results of the needs assessment under paragraph (b) (1) of this section, broken out by need for new personnel and need for retrained personnel.

(d) The State educational agency may enter into contracts with institutions of higher education, local educational agencies or other agencies, institutions, or organizations (which may include parent, handicapped, or other advocacy organizations), to carry out:

(1) Experimental or innovative personnel development programs;

(2) Development or modification of instructional materials; and

(3) Dissemination of significant information derived from educational research and demonstration projects.

(3) Each annual program plan must provide that the State educational agency insures that ongoing inservice training programs are available to all personnel who are engaged in the education of handicapped children, and that these programs include:

(5) Describe how the training will be provided in terms of (1) geographical scope (such as Statewide, regional, or local), and (ii) staff training source (such as college and university staffs, State and local educational agency personnel, and non-agency personnel);

(6) Specify: (1) The funding sources to be used, and

(ii) The time frame for providing it; and

(e) Each annual program plan must provide that the State educational agency insures that ongoing inservice training programs are available to all personnel who are engaged in the education of handicapped children, and that these programs include:

(1) The use of incentives which insure participation by teachers (such as released time, payment for participation, options for academic credit, salary step credit, certification renewal, or updating professional skills);

(2) The involvement of local staff; and

(3) The use of innovative practices which have been found to be effective.

OSE Reviewer's Guide

- D. Inservice (the purpose of this section is to describe the specific plan for inservice based on the needs assessment.)
10. The Personnel Development Plan must provide a structure for personnel planning focusing on inservice needs.
NOTE: If the structure for personnel planning has been described above (e.g., a manpower planning committee) it need only be referenced.
11. The Personnel Development Plan describes the results of the annual needs assessment.
-needed areas of inservice training -assigning priorities to those areas
NOTE: If inservice training needs have been described above, it may be referenced here.
12. The Personnel Development Plan identifies target populations for inservice training, such as:
- | | |
|--|------------------------------------|
| -special education instructional personnel | -physical therapists |
| -regular teachers | -occupational therapists |
| -administrators | -medical personnel |
| -psychologists | -parents |
| -speech-language pathologists | -volunteers |
| -audiologists | -hearing officers |
| -physical education teachers | -surrogate parents |
| -therapeutic recreation specialists | -vocational educators |
| | -paraprofessionals (teacher aides) |
13. There are target training audiences specified (same as above).
14. There are program objectives.
15. The content and nature of the training are described, such as:
- | | |
|--------------------------------|-----------------------------|
| -individual education programs | -non-discriminatory testing |
| -least restrictive environment | -procedural safeguards |
| -surrogate parents | -other |
16. The trainers are described for the various inservice programs.
-IHE's -LEA's -SEA's -Non-agency
17. Funding sources for the various inservice programs are specified.
18. The time frame for the various inservice programs are specified.
19. The SEA insures the use of incentives which insures participation by teachers, such as:
- | | |
|------------------------------|-------------------------------|
| -released time | -salary step credit |
| -certification renewal | -updating professional skills |
| -options for academic credit | -payment for participation |
- 19b. The SEA insures the involvement of local staff.
20. The SEA insures the use of innovative practices which have been found to be effective.

WRITER'S GUIDE

D. Inservice

Purpose

The purpose of this section is to describe the plan for inservice, based on the needs assessment. The plan will include specific and concise statements of activities which will be carried out during the coming year. The focus is on the descriptions of training priorities, content of training, and target populations to receive training under federal, state, and local funds.

There are two major subsections:

- . how the planning was done, including the structure for planning, assigning priorities and determining training audiences; and
- . how the plan will be implemented, including target audiences, program objectives, content and nature of training, geographic scope, training providers, funding sources, time frame, use of incentives, involvement of local staff, and use of effective and innovative practices.

Suggestions

In some states, the cooperative manpower planning committee or council which developed as a result of the 1974 BEH Directive, continues to be the primary planning structure. If this is the case, its role and function should have been described in Section B, Input and Implementation, and should be referenced here. However, if a different structure is used for inservice planning, describe it in this section.

Referring to the program areas where training is needed and identifying the personnel requiring training, explain how the state education agency (SEA) establishes its priorities and determines the needs to be addressed in the coming year. This section should include a relatively detailed description of the training the SEA plans to initiate. Organize this section by training area or personnel category, or display the information in tables or charts. Include information on SEA-initiated inservice related to Public Law 94-142, as well as other SEA inservice training and activities of other agencies, when appropriate. This section offers the opportunity to describe the results of cooperative planning among IHE's, LEA's and the SEA as it is realized in the delivery of training. In addition, when training available through other agencies and organizations is incorporated, show its relationship to the comprehensive system. A summary of the projected inservice training activities is to be included on Table 2 (see Appendix III). Provide at least the following information in the narrative:

- . the target audience as specified above;
- . the program objectives, which will be used in evaluating the inservice training;
- . the content and nature of the training;
- . the geographic scope;
- . the staff training source;
- . the funding sources to be used; and
- . the time frame.

Additional narrative may describe strategies to insure that the skills and competencies achieved as a result of the training are implemented and produce the intended results.

Describe in this section the ways in which the SEA insures that incentives are used in inservice training and how local staff are involved. In addition, tell how the state insures the use of innovative practices found to be effective. Some suggestions for doing this are:

- . require local education agencies to describe use of incentives, local staff involvement, and effective innovative practices in their local Public Law 94-142 applications;
- . establish guidelines or criteria for the use of Public Law 94-142 flow-through funds for inservice training;
- . develop a review process to examine and validate innovative practices in professional development within the state;
- . contract for carrying out experimental or demonstration training projects; and
- . provide technical assistance networks from the SEA to the LEA to implement the CSPD, as will be described in greater length in Section H.

* * * * *

Resources

- Appendix D-1: Personnel Development Inservice Plan (sample form used by LEA's)
- Appendix D-2: Record of Personnel Development Activities (sample forms used by LEA's to record training information)
- Appendix D-3: Projected Training Timelines (one way to display training timeframes)
- Appendix D-4: List of incentives (suggestions for possible incentives for participation in training)

WRITER'S WORKSHEET

Rules and Regulations

E. Preservice

121a.383 Personnel development plan.

Each annual program plan must; (a) Include a personnel development plan which provides a structure for personnel planning and focuses on preservice and inservice education needs;

(b) Describe the results of the needs assessment under 121a.382(b)(1) with respect to identifying needed areas of training, and assigning priorities to those areas; and

(c) Identify the target populations for personnel development, including general education and special education instructional and administrative personnel, support personnel, and other personnel (such as paraprofessionals, parents, surrogate parents, and volunteers).

OSE Reviewer's Guide

E. Preservice

21. The Personnel Development Plan must provide a structure for personnel planning focusing on preservice needs. (NOTE: If the structure for personnel planning has been described previously, it may be referenced).
22. The Personnel Development Plan describes the results of the annual needs assessment.
 - needed areas of preservice training are described
 - areas of preservice training are described in order of priority
23. The Personnel Development Plan identifies target populations for preservice training, including
 - general education instructional personnel
 - administrative personnel
 - support personnel
 - other personnel

WRITER'S GUIDE

E. Preservice

Purpose

This section provides planning information similar to the preceding section. It should include a description of:

- . the structure for personnel planning focusing on preservice needs, e.g., supply and demand;
- . needed areas of training (content and category); and
- . target populations to be trained.

Suggestions

When the state-level planning structure is essentially the same for preservice as for inservice training, then Section D, "Inservice", may be referenced. However, when the preservice planning structure differs, describe the structure in this section.

Describe the process for determining and establishing priorities of training needs and the populations requiring the training. Describe the process for integrating the training into the existing curriculum or preservice delivery system. Using the personnel categories listed in the OSE Reviewer's Guide, indicate which of those target populations will be addressed during the coming year. Describe the role of the SEA in the implementation of the preservice plan for each target group.

WRITER'S GUIDE (Cont.)

Helpful in developing this section are the following:

- a list of approved special education programs in the state's institutions of higher education;
- types of programs by area of handicapping condition(s) and geographic location;
- a list of graduate, undergraduate, junior college programs preparing regular education instructional personnel, administrators or support personnel;
- organizational charts to determine administrative responsibility;
- data on numbers of graduates;
- data on employment of graduates;
- research data on low incidence needs;
- inter-state planning efforts, if any;
- data tables (see Appendix III); and
- attrition rate information of school personnel by category or position.

* * * * *

Resources

- Appendix E-1: List of Preservice Programs (tables used by two states to display preservice information)
- Appendix E-2: Preservice Requirements (sample outline of preservice requirements)
- Appendix E-3: Questionnaire for Teacher Education Institutions to identify personnel trained and faculty training needs (sample form from one university)
- Appendix E-4: Questionnaire for teachers to assess adequacy of Teacher Preparation (sample from one university)

WRITER'S WORKSHEET

Rules and Regulations

F: Dissemination and Adoption

(20 U.S.C. 1413(a)(3).)

121a.384 Dissemination.

(a) Each annual program plan must include a description of the State's procedures for acquiring, reviewing, and disseminating to general and special educational instructional and support personnel, administrators of programs for handicapped children, and other interested agencies and organizations (including parent, handicapped, and other advocacy organizations) significant information and promising practices derived from educational research, demonstration, and other projects.

(b) Dissemination includes:

(1) Making those personnel, administrators, agencies, and organizations aware of the information and practices;

(2) Training designed to enable the establishment of innovative programs and practices targeted on identified local needs; and

(3) Use of instructional materials and other media for personnel development and instructional programming.

121a.385 Adoption of educational practices.

(a) Each annual program plan must provide for a statewide system designed to adopt, where appropriate, promising educational practices and materials proven effective through research and demonstration.

(b) Each annual program plan must provide for thorough reassessment of educational practices used in the State.

(c) Each annual program plan must provide for the identification of State, local, and regional resources (human and material) which will assist in meeting the State's personnel preparation needs.

OSE Reviewer's Guide

F. Dissemination and Adoption

24. A description of the State's procedures for acquiring significant information and promising practices derived from:
 - educational research
 - other projects
 - demonstration projects
25. A description of the State's procedures for reviewing significant information derived from:
 - educational research
 - other projects
 - demonstration projects
26. A description of the State's procedures for disseminating the reviewed information to:
 - general educators
 - administrators
 - special education instructional personnel
 - interested agencies
 - interested organizations
 - support personnel
27. Dissemination includes making those personnel, administrators, agencies, and organizations aware of information and practices.
28. Dissemination includes training designed to enable the establishment of innovative programs.
29. Dissemination includes use of instructional materials and other media for:
 - personnel development
 - instructional programming
30. The annual program plan must provide for a Statewide system designed to adopt, where appropriate, promising educational practices and materials proven effective through research and demonstration,
must provide for thorough reassessment of educational practices used in the State, and
must provide for the identification of resources which will assist in meeting the State's personnel preparation need:
 - a) State resources
 - human resources - material
 - b) local resources
 - human resources - material
 - c) regional resources
 - human resources - material

WRITER'S GUIDE

F. Dissemination and Adoption

Purpose

This section describes the State's efforts to insure awareness and adoption of significant information and promising practices in personnel development from educational research, demonstration projects, and other projects. The State's role includes:

- establishing a definition or criteria for "significant information";
- acquiring significant information;
- reviewing the information; and
- disseminating the information to interested persons, agencies, and organizations, at these levels: awareness, training, and use.

Also included in this section are provisions for the following:

- defining or describing criteria for identifying promising practices;
- a statewide system for adoption of promising practices.

WRITER'S GUIDE (Cont.)

- . a thorough reassessment of educational practices; and
- . identification of human and material resources.

Suggestions -

In outlining the State's procedures for reviewing, acquiring, and disseminating personnel development information, first include the systems already available to the State Education Agency and the populations reached by these systems. Next, consider new systems which the State must develop to meet populations not reached or not thoroughly served. A partial list of alternatives might include the following:

Acquiring information:

- . state, regional, or national clearinghouses;
- . instructional materials centers;
- . regional resource centers;
- . state, regional, or national dissemination networks; and
- . priorities for selection based on needs assessment data.

Reviewing information:

- . development or adaptation of criteria and procedures for review;
- . establishment of review teams or use of existing review panels; and
- . use of results of validation by other agencies or organizations.

Disseminating information:

- . state, local, regional, or national dissemination projects;
- . conferences and meetings;
- . mailings such as newsletters, bulletins, or other publications;
- . information and referral services;
- . toll-free telephone number for questions or requests for information;
- . regional networks, such as intermediate education units;
- . inservice training to prepare personnel for adoption of effective innovative practices; and
- . loan service for media and materials.

The CSPD must also provide for a statewide system for adoption of proven practices in personnel training. Such a system may already exist or may be developed for this purpose.

Indicate activities relevant to the thorough reassessment of personnel development practices in your state. This reassessment may be accomplished through an existing SEA system, such as monitoring or program review.

Identify human and material resources for personnel development at the local, regional, and state levels. These resources need not be listed in the CSPD, but may be described in general terms. These resources might also be displayed in a chart or table showing their geographic location, type, purpose, availability, and how they can be accessed. Any national responses which the state currently uses or plans to use also should be noted in this section.

* * * * *

Resources

- Appendix F-1: Dissemination and Adoption Resources (a list of national resources, their purposes, and addresses)
- Appendix F-2: Forms for Reporting Exemplary Programs and Practices (sample forms from two states)
- Appendix F-3: Listing of available inservice training and training request forms (a sample form from one state)

WRITER'S WORKSHEET

Rules and Regulations

G. Evaluation

- (1) The comprehensive system of personnel development in meeting the needs for personnel, and
- (2) The procedures for administration of the system; and

121a.386 Evaluation.

Each annual program plan must include:

- (a) Procedures for evaluating the overall effectiveness of:

- (b) A description of the monitoring activities that will be undertaken to assure the implementation of the comprehensive system of personnel development.

- (7) Specify procedures for effective evaluation of the extent to which program objectives are met.
(20 U.S.C. 1413(a)(3).)

121a.386 Evaluation has been replaced by 100b.101(a) and (e)(4) of Education Division General Administration Regulations (EDGAR) as follows:

100b.101 The general State application

- (a) This section applies to the programs listed in 100b.1 under which a State educational agency may make subgrants to local educational agencies.

- (c) . . .
- (4) That the State will evaluate the effectiveness of each program in meeting statutory objectives--not less often than once every three years--and that the State will cooperate in carrying out any evaluation of a program conducted by or for the Secretary or other Federal official.

- (7) Specify procedures for effective evaluation of the extent to which program objectives are met.

OSE Reviewer's Guide

G. Evaluation

31. The annual program plan includes procedures for evaluating the effectiveness of:
 - a) the CSPD in meeting the needs for personnel
 - b) procedures for administration of the system
32. A description of the monitoring activities which will be undertaken to assure the implementation of the CSPD.
33. Specifies procedures for effective evaluation of the extent to which program objectives are met (reference is for inservice program).

NOTE: As indicated in the PREFACE, a revision of the OSE Reviewer's Guide will be made to reflect changes required by EDGAR. Clearly, this "Evaluation" section appears likely to be significantly affected.

WRITER'S GUIDE

G. Evaluation

Purpose

The purpose of this section is to explain how evaluation of the CSPD will be accomplished. Three components must be described in the evaluation plan. They are:

- . procedures for evaluation of CSPD effectiveness:
 - .. how well it meets the needs for personnel
 - .. how well it is administered.
- . monitoring activities to assure implementation of the CSPD at state, regional, and local levels.
- . procedure for evaluation of the extent to which inservice program objectives are met.

Suggestions

Overall effectiveness of the CSPD is evaluated in two ways. First is an evaluation of outcomes, that is, the effectiveness of the system in meeting the state's personnel needs as identified in the annual needs assessment. This section should describe how that evaluation is made including a description of the procedures used, kinds of data collected, and the manner of analysis of data.

Some methods useful for evaluating outcomes are:

- . matching personnel needs with available personnel over time
- . comparison of training needed by various target audiences with training actually provided;
- . collecting personnel, curriculum, and child change data; and
- . third party evaluation.

WRITER'S GUIDE (Cont.)

The second type of evaluation of CSPD effectiveness is an evaluation of the procedure for administering the system.

Some methods for this type of evaluation are:

- . third party evaluation of planning and administration;
- . surveys of persons involved in personnel development activities within the state;
- . establishing expected outcomes for each component of administration of the system, with periodic checks to determine whether those outcomes are achieved; and
- . a description of the results attributed to training and development.

Information on monitoring activities should include a description of activities which assure that the CSPD is being implemented at the local level. These monitoring activities might include:

- . review of local district plans for Public Law 94-142;
- . review of local staff development plans to insure that LEA implementation of the CSPD is integrated with other staff development activities;
- . training of compliance monitoring teams to incorporate CSPD monitoring in on-site reviews;
- . application of criteria for LEA inservice;
- . fiscal audit of flow-through funds used for inservice;
- . on-site monitoring of LEA staff development; and
- . review of program changes resulting from personnel development.

Included in the information on evaluation of inservice programs should be the description of the procedures used to determine if objectives were met. The evaluation methods, criteria, and schedules (time lines), as well as systems for maintaining the information should be established prior to beginning the inservice program. Because objectives vary, this evaluation component might include various methods depending upon their appropriateness for a given program. Some possibilities are:

- . systematically measuring outcomes and comparing them with criteria;
- . assessing competencies acquired during training;
- . using follow-up methods to determine whether skills learned are applied;
- . observation of trainees on the job;
- . identifying and measuring student outcomes which result from personnel training;
- . identifying and measuring personnel outcomes which result from personnel training;
- . use of behavior contracts;
- . grades and/or higher education credits;
- . participant, supervisor, and peer evaluation;
- . surveys and questionnaires.

* * * * *

Resources

- Appendix G-1: LEA Comprehensive Training Plan (sample form used by one state for LEA plans)
- Appendix G-2: Evaluation Form (examples of evaluation instruments for inservice activities)
- Appendix G-3: Criteria for Evaluating inservice instructional packets (a sample form from one state)

WRITER'S WORKSHEET

Rules and Regulations

H. Technical Assistance

121a.387 Technical assistance to local educational agencies.

Each annual program must include a description of technical assistance that the State educational agency gives to local educational agencies in their implementation of the State's comprehensive system of personnel development.

OSE Reviewer's Guide

H. Technical Assistance

34. Includes a description of technical assistance that SEA provides to LEA's in their implementation of the State's CSPD.

WRITER'S GUIDE

H. Technical Assistance.

Purpose

The purpose of this section is to describe the support system the SEA offers to local educational agencies in implementing the CSPD. This support may include any efforts designed to increase planning, management, organizational or program skills. The focus is on improvement of program quality, not on monitoring or compliance concerns.

Suggestions

Technical assistance may be delivered directly by staff members from the SEA or arranged by the SEA from other sources. A wide variety of activities is possible:

- . provision of consultant services;
- . site visits;
- . demonstrations or displays;
- . information collection, analysis, and dissemination;
- . production of documents and publications;
- . dissemination of documents and publications;
- . conducting conferences, workshops, and meetings;
- . clearinghouse services;
- . maintenance of technical assistance centers; and
- . other regional or local coordination.

In preparing this section, document the kinds of services provided to LEA's in the area of personnel development.

* * * * *

Resources

- Appendix H-1: Resources for Technical Assistance in Personnel Development (a partial list of sources of help to agencies providing technical assistance)
- Appendix H-2: Technical Assistance Summary (a sample of a form for displaying data on technical assistance)
- Appendix H-3: List of Educational Developers (a resource list of developers of educational materials)

WRITER'S WORKSHEET

APPENDICES

Note to the reader: Two types of appendices are included in this section: Appendices I through III include complete copies of the CSPD regulations, the CSPD section of the OSE Reviewer's Guide and the personnel data tables required for the State Plan. The remaining appendices (A through H) include resources for each section of the CSPD. The forms and other materials are intended to serve as examples; they should not be considered as models.

Appendix I. RULES AND REGULATIONS

COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT

121a.380 Scope of system.

Each annual program plan must include a description of programs and procedures for the development and implementation of a comprehensive system of personnel development which includes:

(a) The inservice training of general and special educational, instructional, related services, and support personnel;

(b) Procedures to insure that all personnel necessary to carry out the purposes of the Act are qualified (as defined in 121a.12 of Subpart A) and that activities sufficient to carry out this personnel development plan are scheduled; and

(c) Effective procedures for acquiring and disseminating to teachers and administrators of programs for handicapped children significant information derived from educational research, demonstration, and similar projects, and for adopting where appropriate, promising educational practices and materials developed through those projects. (20 U.S.C. 1413(a)(3).)

121a.381 Participation of other agencies and institutions.

(a) The State educational agency must insure that all public and private institutions of higher education, and other agencies and organizations (including representatives of handicapped, parent, and other advocacy organizations) in the State which have an interest in the preparation of personnel for the education of handicapped children, have an opportunity to participate fully in the development, review, and annual updating of the comprehensive system of personnel development.

(b) The annual program plan must describe the nature and extent of participation under paragraph (a) of this section and must describe responsibilities of the State educational agency, local educational agencies, public and private institutions of higher education, and other agencies:

(1) With respect to the comprehensive system as a whole, and

(2) With respect to the personnel development plan under 121a.383. (20 U.S.C. 1412(7)(A); 1413(a)(3).)

121a.382 Inservice training.

(a) as used in this section, "inservice training" means any training other than a full-time program which leads to a degree

(b) Each annual program plan must provide that the State educational agency:

(1) Conducts an annual needs assessment to determine if a sufficient number of qualified personnel are available in the State; and

(2) Initiates inservice personnel development programs based on the assessed needs of State-wide significance related to the implementation of the Act.

(c) Each annual program plan must include the results of the needs assessment under paragraph

(b)(1) of this section, broken out by need for new personnel and need for retrained personnel.

(d) The State educational agency may enter into contracts with institutions of higher education, local educational agencies or other agencies, institutions, or organizations which may include parent, handicapped, or other advocacy organizations), to carry out:

(1) Experimental or innovative personnel development programs;

(2) Development or modification of instructional materials; and

(3) Dissemination of significant information derived from educational research and demonstration projects.

(a) Each annual program plan must provide that the State educational agency insures that ongoing inservice training programs are available to all personnel who are engaged in the education of handicapped children, and that these programs include:

(1) The use of incentives which insure participation by teachers (such as released time payment for participation, options for academic credit, salary step credit, certification renewal, or updating professional skills);

(2) The involvement of local staff; and

(3) The use of innovative practices which have been found to be effective.

(f) Each annual program plan must:

(1) Describe the process used in determining the inservice training needs of personnel engaged in the education of handicapped children;

(2) Identify the areas in which training is needed (such as individualized education programs, non-discriminatory testing, least restrictive environment, procedural safeguards, and surrogate parents);

(3) Specify the groups requiring training (such as special teachers, regular teachers, administrators, psychologists, speech-language pathologists, audiologists, physical education teachers, therapeutic recreation specialists, physical therapists, occupational therapists, medical personnel, parents, volunteers, hearing officers, and surrogate parents);

(4) Describe the content and nature of training for each area under paragraph (f)(2) of this section;

(5) Describe how the training will be provided in terms of (1) geographical scope (such as State-wide, regional or local), and (11)

staff training source (such as college and university staffs, State and local educational agency personnel, and non-agency personnel);

(6) Specify: (1) The funding sources to be used, and

(11) The time frame for providing it; and

(7) Specify procedures for effective evaluation of the extent to which program objectives are met.

(20 U.S.C. 1413(a)(3).)

121a.383 Personnel development plan.

Each annual program plan must (a) include a personnel development plan which provides a structure for personnel planning and focuses on preservice and inservice education needs:

(b) Describe the results of the needs assessment under 121a.382(b)(1) with respect to identifying needed areas of training, and assigning priorities to those areas; and

(c) Identify the target populations for personnel development, including general education and special education instructional and administrative personnel, support personnel, and other personnel (such as paraprofessionals, parents, surrogate parents, and volunteers).

(20 U.S.C. 1413(a)(3).)

121a.384 Dissemination.

(a) Each annual program plan must include a description of the State's procedures for acquiring, reviewing, and disseminating to general and special educational instructional and support personnel, administrators of programs for handicapped children, and other interested agencies and organizations (including parent, handicapped, and other advocacy organizations significant information and promising practices derived from educational research, demonstration, and other projects.

(b) Dissemination includes:

(1) Making those personnel, administrators, agencies, and organizations aware of the information and practices;

(2) Training designed to enable the establishment of innovative programs and practice targeted on identified local needs; and

(3) Use of instructional materials and other media for personnel development and instructional programming.

(20 U.S.C. 1413(a)(3).)

121a.385 Adoption of educational practices.

(a) Each annual program plan must provide for a statewide system designed to adopt, where appropriate, promising educational practices and materials proven effective through research and demonstration.

RULES AND REGULATIONS
(cont.)

(b) Each annual program plan must provide for thorough reassessment of educational practices used in the State.

(c) Each annual program plan must provide for the identification of State, local, and regional resources (human and material) which will assist in meeting the State's personnel preparation needs.

(20 U.S.C. 1413(n)(3).)

121a.386 Evaluation has been replaced by 100b.101(a) and (e)(4) of Education Division General Administration Regulations (EDGAR) as follows:

100b.101 The general State application

(a) This section applies to the programs listed in 100b.1 under which a State educational agency may make subgrants to local educational agencies.

(4) That the State will evaluate the effectiveness of each program in meeting statutory objectives--not less often than once every three years--and that the State will cooperate in carrying out any evaluation of a program conducted by or for the Secretary or other Federal official.

121a.387 Technical assistance to local educational agencies.

Each annual program plan must include a description of technical assistance that the State educational agency gives to local educational agencies in their implementation of the State's comprehensive system of personnel development.

(20 U.S.C. 1413(a)(3).)

_____ unacceptable (changes must be made before FY-1981 payment can be made)

Remarks/Recommended Action:

Instructions:

The FY-1981-1983 State Plan checklist corresponds with the requirements of the 1981-1983 State Plan. Each reader should complete a checklist.

Material which is incorporated by reference has been received and approved in previous program plans and need not be checked again. If additions, deletions, or modifications are made to material submitted in previous years, that section should be rechecked using the Summary Review Form first used in FY-1979. This form, which was modified for FY-1980 and for this state plan, is identified as checklist B.

When reviewing the plan, please make note of the page and paragraph numbers describing the location of relevant material. This may be used to verify your findings.

Comments added to this checksheet will not be considered a part of the official annual program plan submission.

V. Comprehensive System of Personnel Development				
I. INTRODUCTION (Overview of State procedures used to develop and implement the CSPD)				
1. Scope of System				
a) Establishes State procedures to insure that all personnel necessary to carry out the purposes of P.L. 94-142 are qualified and that activities sufficient to carry out the plan of the State are scheduled. (121a.380)				
b) Establishes State procedures for acquiring and disseminating to teachers and administrators of programs for handicapped children significant information derived from educational research, demonstration, and similar projects, and for adopting, where appropriate, promising educational practices and materials developed from those projects. (121a.380(c))				
2. Inservice				
a) Describes programs and procedures for the establishment of inservice training, defined as any training other than that received in a full time program which leads to degree. (121a.380(a))				
b) Provides for the inservice training of the following groups of general and special educational instructional, related services, and support personnel, (121a.382(f)(3)) such as:*				
- special education instructional personnel				
- regular teachers				
- administrators				
<div style="border: 1px solid black; padding: 5px;"> <p>*Note: The terminology "such as" is exemplary. Not all boxes listed need be checked "yes" to indicate compliance. The plan for training should be congruent with the needs assessment.</p> </div>				

	Reference			
	Yes	No	Page	Paragraph
- psychologists.				
- speech-language pathologists				
- audiologists				
- physical education teachers				
- therapeutic recreation specialists				
- physical therapists				
- occupational therapists				
- medical personnel				
- parents				
- volunteers				
- hearing officers				
- surrogate parents				
- vocational educators				
- paraprofessionals (teacher aides)				
- educational diagnosticians				
II. INPUT AND IMPLEMENTATION (Description of process to insure participatory planning and the results of the process i.e., the nature and extent of broad-based participation in the development, review, and annual updating of the CSPD).				
3. Describes how input from all public and private IEH's, other agencies and organizations, and representatives of parents handicapped organizations has been obtained. (121a.381(a) and (b))				
a) The nature and extent of participation is described, indicating:				
i) participating in development				
ii) review				

	Reference			
	Yes	No	Page	Paragraph
iii) annual updating				
4. The responsibilities of SEA's, LEA's, IHE's, and other agencies related to the development of the CSPD are described: (121a.382(b))				
a) relating to inservice				
b) relating to preservice				
(Note: A simple matrix or table with some narrative could convey the various responsibilities of the SEA, LEAs and IHEs)				
III. NEEDS ASSESSMENT				
5. An annual needs assessment has been conducted. (121a.383(b)(i) + 121a.382(b)(i))				
6. The needs assessment process is described. (121a.382(f))				
7. The sources of information are indicated, and				
The target populations for personnel development are identified, including: (121a.383(c))				
- special education instructional personnel				
- general education instructional personnel				
- administrative personnel				
- parents				
- volunteers				
- support personnel				
- surrogate parents				
- paraprofessionals				
Other populations may be included, such as:				
- physical therapists				
- medical personnel				

	Reference			
	Yes	No	Page	Paragraph
b) The number of new personnel needed, such as* (121a.383(c))				
i) general educational:				
instructional				
support personnel				
ii) special educational:				
instructional				
related service providers				
support personnel				
c) The number of personnel requiring retraining, such as:*				
i) general educational personnel				
ii) special educational personnel				
d) The content areas in which training is needed (121a.382(f)(2))				
e) The groups requiring training from the following listing such as: (121a.382(f)(3))				
- special education instructional personnel				
- regular teachers				
- administrators				
- psychologists				
- speech-language pathologists				
- audiologists				
- physical education teachers				
- occupational therapists				
- medical personnel				
- parents

- occupational therapists				
- psychologists				
- speech-language pathologists				
- hearing officers				
- audiologists				
- physical education teachers				
- therapeutic recreation specialists				
- vocational educators				
- educational diagnosticians				
- others				
8. The process used to collect the needs assessment data is described. (121a.382(f))				
9. The information collected includes: (121a.382(1))				
a) The number of qualified personnel available, such as*				
i) general educational:				
instructional				
support personnel				
ii) special educational:				
instructional				
related service providers				
support personnel				

	Reference

- volunteers				
- hearing officers				
- surrogate parents				
- vocational educators				
- paraprofessionals (teacher aides)				
- educational diagnosticians				
- physical therapists				
IV. INSERVICE (The purpose of this section is to describe the specific plan for inservice based on the needs assessment.)				
10. The Personnel Development Plan must provide a structure for personnel planning focusing on inservice needs. (121a.383(a))				
NOTE: If the structure for personnel planning has been described above (e.g., a manpower planning committee) it need only be referenced.				
11. The Personnel Development Plan describes the results of the annual needs assessment: (121a.383(b))				
- needed areas of inservice training				
NOTE: If inservice training needs have been described above, it may be referenced here.				
- assigning priorities to those areas				
12. The Personnel Development Plan identifies target populations for inservice training, such as: (121a.383(c)) (NOTE: Not all groups need be addressed to indicate compliance)				
- special education instructional personnel				

	Reference			
	Yes	No	Page	Paragraph
- regular teachers				
- administrators				
- psychologists				
- speech-language pathologists				
- audiologists				
- physical education teachers				
- therapeutic recreation specialists				
- physical therapists				
- occupational therapists				
- medical personnel				
- parents				
- volunteers				
- hearing officers				
- surrogate parents				
- vocational educators				
- paraprofessionals (teacher aides)				
13. There are target training audiences specified (same as above) (121a.382(b)(2)) (121a.382(f)(3))				
- special teachers				
- regular teachers				
- administrators				
- psychologists				
- speech-language pathologists				
- audiologists				
- physical education teachers				
- therapeutic recreation specialists				

	Reference			
	Yes	No	Page	Paragraph
- physical therapists				
- occupational therapists				
- medical personnel				
- parents				
- volunteers				
- hearing officers				
- surrogate parents				
14. There are program objectives. (121a.382(f)(7))				
15. The content and nature of the training are described, such as: (121a.382(f)(2) and (f)(4))				
- individualized education programs				
- non-discriminatory testing				
- least restrictive environment				
- procedural safeguards				
- surrogate parents				
- other				
16. The trainers are described for the various inservice programs. (121a.382(f)(5)(ii)) (121a.382(d) and (e))				
- IHE's				
- SEA's				
- LEA's				
- non agency				
17. Funding sources for the various inservice programs are specified. (121a.382(f)(b)(i)) (121a.382(e))				

	Reference			
	Yes	No	Page	Paragraph
18. The time frame for the various inservice programs are specified. (121a.382(f)(b)(ii)) (121a.382(e))				
19a. The SEA insures the use of incentives which insure participation by teachers such as:*				
(121a.382(e))				
- released time				
- payment for participation				
- options for academic credit				
- salary step credit				
- certification renewal				
- updating professional skills				
19b. The SEA insures the involvement of local staff (121a.382(e) and (e)(2))				
20. The SEA insures the use of innovative practices which have been found to be effective. (121a.382(e) and (e)(3))				
V. PRESERVICE				
21. The Personnel Development Plan must provide a structure for personnel planning focusing on preservice needs. (121a.383(a)) (NOTE: If the structure for personnel planning has been described previously, it may be referenced.)				
22. The Personnel Development Plan describes the results of the annual needs assessment: (121a.383(b))				
- needed areas of preservice training are described				
- areas of preservice training are described in order of priority				
23. The Personnel Development Plan identifies target populations for preservice training, including (121a.383(c))				
- general education instructional personnel				

	Yes	No	Reference	
			Page	Paragraph
- administrative personnel				
- support personnel				
- other personnel				
VI. DISSEMINATION AND ADOPTION				
24. A description of the State's procedures for acquiring significant information and promising practices derived from: (121a.384(2))				
- educational research				
- demonstration projects				
- other projects				
25. A description of the State's procedures for reviewing significant information derived from: (121a.384(a))				
- educational research				
- demonstration projects				
- other projects				
26. A description of the State's procedures for disseminating the reviewed information to: (121a.384(a))				
- general educators				
- special education instructional personnel				
- support personnel				
- administrators				
- interested agencies				
- interested organizations				
27. Dissemination includes making those personnel, administrators, agencies, and organizations aware of information and practices. (121a.384(b)(1))				

	Reference			
	Yes	No	Page	Paragraph
28. Dissemination includes training designed to enable the establishment of innovative programs. (121a.384(b)(2))				
29. Dissemination includes use of instructional materials and other media for (121a.384(b)(3)):				
- personnel development				
- instructional programming				
30. The annual program plan must provide for a Statewide system designed to adopt, where appropriate, promising educational practices and materials proven effective through research and demonstration (121a.385(a)),				
must provide for thorough reassessment of educational practices used in the State (121a.385(b)) and				
must provide for the identification of resources which will assist in meeting the State's personnel preparation need. (121a.385(c))				
a) State resources				
- human resources				
- material				
b) local resources				
- human resources				
- material				
c) regional resources				
- human resources				
- material				
VII. EVALUATION				
31. The annual program plan includes procedures for evaluating the effectiveness of: (121a.386(a)(1) and (2))				

[illegible]

Appendix III

State Plan Tables

Directions for Tables 1A and 1B

The State Education Agency must submit two (2) tables (Tables 1A and 1B, Projected Number of Personnel (in Full Time Equivalents) Needed to Meet the Full Educational Opportunities Goal for Handicapped Children), one for the 1979-80 school year and one for the 1980-81 school year. Provide a projection of the total number of personnel estimated to be needed to meet the full educational opportunities goal for these two years. The tables must include the data derived from all major agencies, including the State Education Agency, which are responsible for educating one or more types of handicapped children.

When recording staff, report in full-time equivalents (i.e., equivalent of full-time staff working exclusively with handicapped). Full-time equivalency of assignment is defined as "the amount of time for a less than full-time activity divided by the amount of time normally required in a corresponding full-time activity. Full-time equivalency is usually expressed as a decimal fraction to the nearest tenth."

Regular classroom teachers who work with handicapped children are not to be included in tables 1A and 1B.

(1). Enter in columns 1, 2, and 3:

- (a) estimates of the TOTAL number of full-time equivalent staff needed to meet the full educational opportunities goal in a row (a),
- and
- (b) estimates of the number of full-time equivalent staff needed to meet the full educational opportunities goal in each of the disability areas (rows (b) through (l)).

(2). Row (a), Columns 4-18. Report only a total in Row (a). Provide the total number of full-time equivalent staff you estimate will be needed to meet the full educational opportunities goal.

PART B - DATA TABLE #1A

PROJECTED NUMBER OF PERSONNEL (IN FULL TIME EQUIVALENTS) NEEDED TO
MEET THE FULL EDUCATIONAL OPPORTUNITIES GOAL FOR HANDICAPPED

MULTIHANDICAPPED (l)																		

DIRECTIONS TABLE 2

Enter the total number of individuals to be trained for each training audience (columns) and for each type of training (rows). The projection should include those trained under Federal (e.g., Part B, Part D, etc.), State, local, and other funds to be used for this purpose. The projection should include those who will be trained by SEAs, LEAs, IHEs or any other trainers.

A. Enter an unduplicated count for each type of training (rows).

Example: A particular State's Awareness type of training programs for a particular training audience consists of 3 half day sessions. In this instance an individual would be counted once, not three times.

Example: The same State's Awareness type of training program for a different training audience consists of a one day session. In this instance an individual would also be counted once.

Example: When an entry is made for a particular type of training such as Awareness training for regular classroom teachers, the entry should represent all of the individuals in the State to receive this type of training during the 1979-80 school year.

B. If an individual participates in more than one type of training, count him/her for each type of training.

Example: 1000 regular classroom teachers are to receive awareness training, and it is planned that the same teachers will also receive knowledge training. In this instance, the entry will be 1000 in the Awareness row and 1000 in the Knowledge row. A variation would be to schedule Knowledge training for an additional 500 regular classroom teachers who received Awareness training the previous year. In this case the projected number would stay the same in the Awareness row Training 1000, but the projected number in the knowledge row would be 1500.

TABLE 2

Projected Number of Persons to Receive Inservice Training
During the 1979-1980 School Year

Type of Training*	Training Audience							
	regular classroom teachers	special education teachers	teacher aides	parents	support personnel (psychology, social workers, health personnel, physical education, etc.)	administrators	operations personnel (secretarial, clerical, maintenance, transportation food service)	other (specify)
1. Awareness								
2. Knowledge								
3. Skill practice								
4. Skill application								

*See attached definitions

DEFINITIONS TABLE 2

It is assumed that an individual is entitled to a series of inservice training programs which allow that person to execute his/her responsibilities under P.L. 94-142. A program is defined as a single workshop or session, or a series of workshops or sessions related to the following four types of training:

1. Awareness Training. This type of training focuses primarily on attitudinal change. Included in this category are training sessions which include public relations type of information such as informing school personnel and the public about P.L. 94-142, and sensitizing the audience about the needs and skills of handicapped children.
2. Knowledge Training. This type of training focuses primarily on cognitive change. In contrast to type (1) training, type (2) training is of a longer duration, the information is more detailed, and the participants are expected to retain the information. Some examples of topics appropriate for this category of training are: characteristics of children with one or many types of handicapping conditions; due process procedures; education in the least restrictive environment; individual education programs, classroom management, etc.
3. Skill Practice. This type of training usually follows type (1) and (2) training. The training focuses on producing behavioral change in the participant in a controlled setting such as a practicum or lab situation. In many instances the trainee will actually work with handicapped children, or parents, or school staff as an integral feature of this type of inservice training.
4. Skill Application. This type of training also focuses on behavioral change. In contrast with type (3), type (4) emphasizes behavioral change which is learned and demonstrated in the trainees own work environment, in their current position, in their own school.

NOTE: Many SEAs focus their inservice training at type 1 and 2 with the understanding that types 3 and 4 training is the responsibility of Regional Centers, Intermediate Units, or other LEAs. In the narrative (Comprehensive System of Personnel Development), please describe the SEA's involvement with other inservice providers in the State, and how their training relates to the training directly sponsored by the SEA.

Appendix A-1

TEXAS EDUCATION AGENCY

POLICIES AND ADMINISTRATIVE PROCEDURES
FOR THE EDUCATION OF HANDICAPPED STUDENTS

35.75.040 Personnel Development

All agencies of public education shall develop a program of personnel development for all school and related staff involved in the education of handicapped students.

35.75.040 Personnel Development

(1) State-Level Comprehensive System of Personnel Development

The Texas Education Agency provides a comprehensive system of personnel development which includes:

- (A) formulation of policies relating to certification or licensure of all personnel involved in the education of the handicapped;
- (B) identification of statewide training and inservice education needs on a periodic basis;
- (C) development of a statewide personnel development plan to meet identified training needs;
- (D) utilization of statewide advisory groups composed of representatives from regional education service centers, local education agencies, institutions of higher education, and other agencies or groups providing services to the handicapped to develop, review, and update plans for personnel development;
- (F) provision of technical assistance to education service centers, school districts, and other agencies providing services to handicapped students in developing and implementing personnel plans; and
- (G) monitoring and evaluation of the system.

(2) Regional-Level Comprehensive System of Personnel Development

Each education service center provides a comprehensive system of personnel development which includes:

- (A) identification of regional training and inservice education needs on a periodic basis;
- (B) development of regional personnel development plans to meet identified training needs;

- (C) utilization of regional advisory groups composed of representatives from local education agencies, institutions of higher education, and other agencies or groups providing services to the handicapped to develop, review, and update plans for personnel development;
- (D) dissemination of information relating to personnel development;
- (E) provision of technical assistance to school districts in developing and implementing personnel development plans; and
- (F) monitoring and evaluation of the system.

(3) Local-Level Comprehensive System of Personnel Development

Each school district or cooperative provides a comprehensive system of personnel development which includes:

- (A) identification of local training and inservice education needs on a periodic basis;
- (B) development of local personnel development plans to meet identified training needs;
- (C) utilization of local advisory groups composed of representatives from local district personnel and other agencies or groups providing services to the handicapped to develop, review, and update plans for personnel development;
- (D) dissemination of information relating to personnel development; and
- (E) monitoring and evaluation of the system.

Training (382)Target Populations:

Many different target populations require training or retraining in order to implement the mandates of the state and federal special education laws. These include:

1. Generic Teachers
2. Moderate Teachers
3. Severe Teachers
4. Vision/Peripatology Teachers
5. Audition Teachers
6. Early Childhood Teachers
7. Regular Education Teachers
8. Secondary/Special Education Personnel
9. Bilingual/Special Education - various areas of specialization and languages
10. Paraprofessionals
11. Parents and Surrogate Parents
12. Vocational Education/Special Education Personnel
13. Regular Education Administrators (Principals, Superintendents)
14. Special Education Administrators (Principals, Superintendents)
15. Speech Pathology/Audiology Personnel
16. Occupational Therapists
17. Physical Therapists
18. Adapted Physical Education
19. Therapeutic Recreation
20. Social Workers
21. Psychologists
22. School Health Personnel - Nurses, Physicians
23. Other Support Personnel - Guidance, Transportation, etc.
24. School Committee Members
25. Peers of Children with Special Needs
26. Citizens of Local Communities (e.g., Parent/Teacher Association, etc.)
27. Higher Education Faculty
28. Mixed External Groups: Function-oriented training; 94-142
Priority Areas, i.e., Individualized Educational Plans
with least restrictive alternative environments, etc.

Local Education Agency Program Audit
 Institutions of Higher Education Program Audit
 Regional Review Board
 Appeals
 Fiscal-transportation-Third Party payments
 Private Schools
 Programs operated by other agencies

29. State Education Agency Staff: Function-oriented training

Management (including clerical)

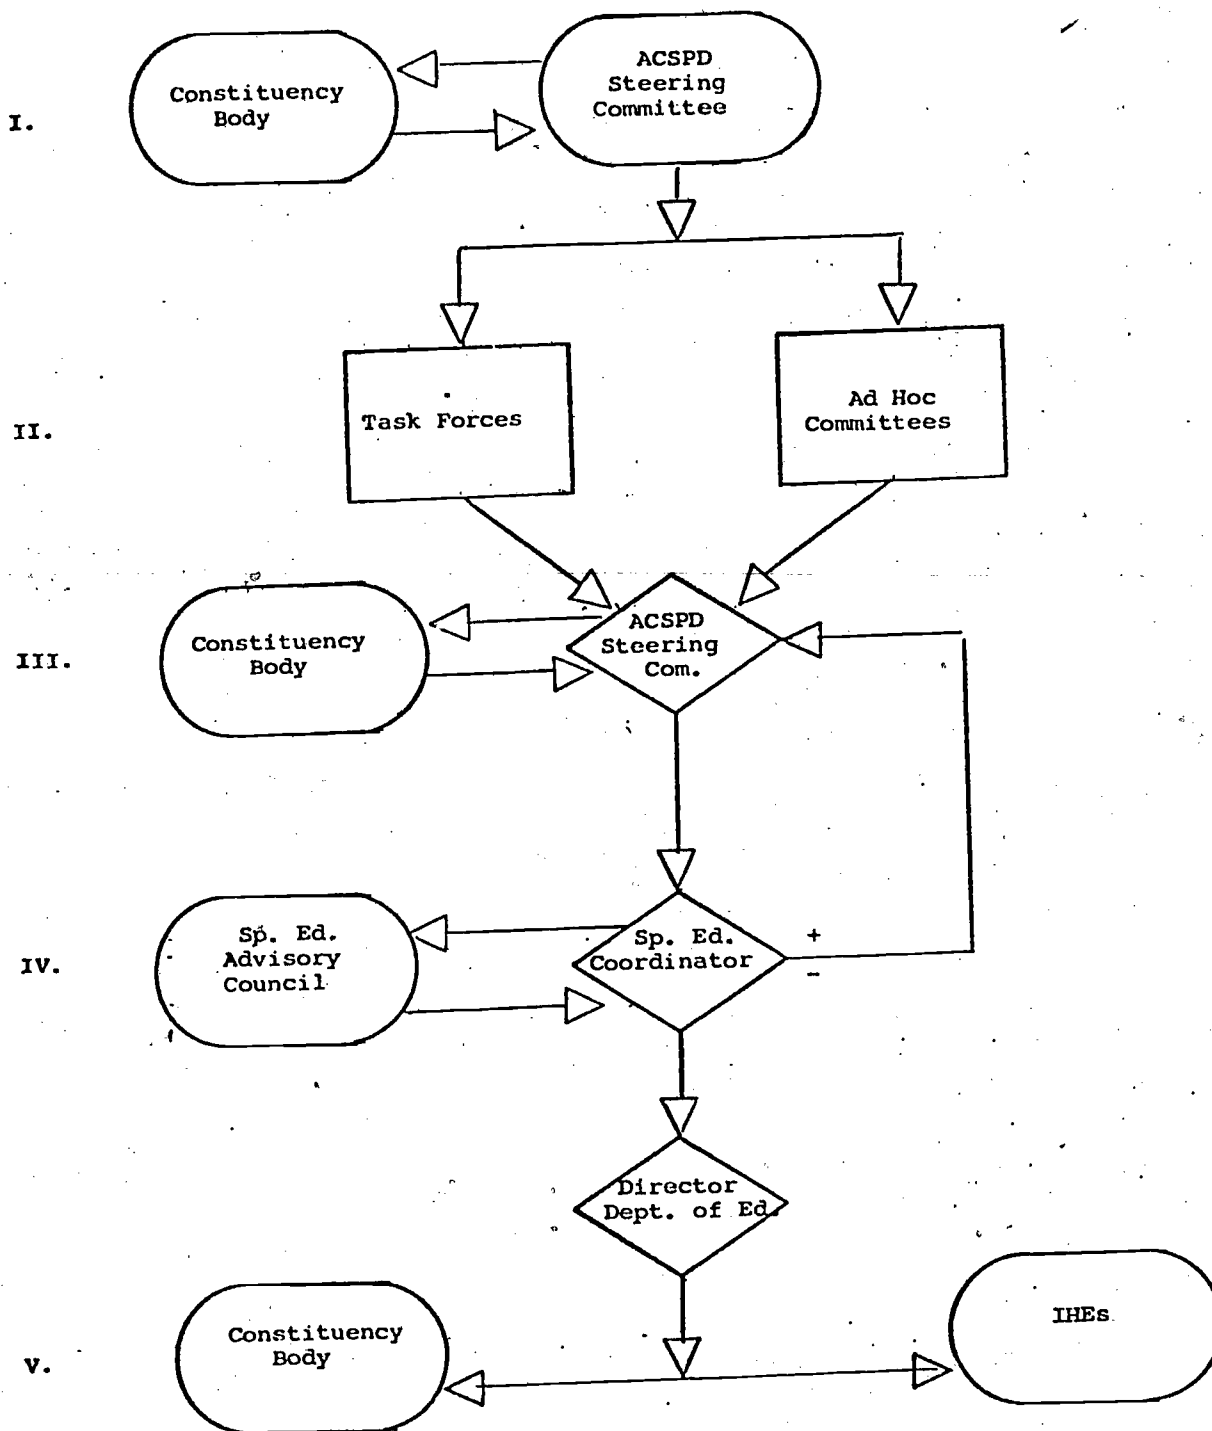

Institutional Schools

Audit/Assistance - Audit, Complaint System, Regional
Review Boards

Appeals - Hearing Officers, Mediators

Appendix A-4

Publications of the Cooperative Manpower Planning Project

The University of Missouri-Columbia Project on Cooperative Manpower Planning in Special Education has published seven documents relative to Cooperative Manpower Planning. These documents have been Nationally disseminated and are listed below:

Schofer, Richard C. and McGough, Robert L. Cooperative Manpower Planning in Special Education: First Missouri Symposium, May, 1976, University of Missouri-Columbia, May, 1976.

This publication is a proceedings document describing the activities of the first symposium on manpower planning in special education at the University of Missouri-Columbia. Projects of various states are described; the past, present and future of Cooperative Manpower Planning are discussed; and a comprehensive research and literature review is included.

McGough, Robert L. and Schofer, Richard C. Cooperative Manpower Planning: Annotated Bibliography, University of Missouri-Columbia, October, 1976.

This annotated bibliography is designed for the use of administrators, researchers, state personnel, and national planners who need access to special documents relating to Cooperative Manpower Planning for Special Education. The items are divided into specialized sections, facilitating its use.

Schofer, Richard C. and McGough, Robert L. Statewide Cooperative Manpower Planning in Special Education: A Status Study, Department of Special Education, University of Missouri-Columbia, November, 1976.

The results of a nationwide status study on the progress and direction of manpower planning efforts in special education are documented in this publication. It investigates how, and to what extent, the various states were responding to the "BEH Directive" for manpower planning in special education. A comprehensive research and literature review is included.

Schofer, Richard C. and McGough, Robert L. Manpower Planning for Special Education: Planning Model and Alternatives, Department of Special Education, University of Missouri-Columbia, August, 1977.

The intention of this document is to serve as a general process document for states that are in the midst of developing their manpower planning committees. Along with a possible model for the development of the committees are included various listings of alternatives and descriptions of useful program components.

Schofer, Richard C. and Duncan, Janice R. Statewide Cooperative Manpower Planning in Special Education: A Second Status Study, Department of Special Education, University of Missouri-Columbia, October, 1978.

The purpose of this second study was to determine the status of manpower planning in special education in all the states. An emphasis was placed on the National reaction and compliance to the Personnel Development Sections of Public Law 94-142.

Schofer, Richard C. and Duncan, Janice R. Comprehensive System of Personnel Development: A Writer's Handbook, Department of Special Education, University of Missouri-Columbia, May, 1979.

The purpose of this handbook is to serve as a resource to state education agencies in the development, review, updating, and implementation of the CSPD section of their State Plan. In particular, this handbook is intended to assist those individuals in each of the State Education Agencies who have primary responsibility for writing up the CSPD.

Schofer, Richard C. and Chalfant, James C. The Missouri Symposium on Doctoral Programming in Special Education: Considerations for the 1980, Department of Special Education, University of Missouri-Columbia, December, 1979.

This document is intended to present critical issues with respect to doctoral programs in special education, share ideas and concepts about the state-of-the-art, and present recommendations and alternatives which might be considered in improving the quality of doctoral training.

Dr. Jasper Harvey's "Dear Colleague" Letter

The following paragraph is taken from a letter written by Jasper Harvey, Director, Division of Personnel Preparation, Bureau of Education for the Handicapped, regarding new grant applications included in Applications for Grants Under Handicapped Personnel Preparation Program, October, 1978:

The Division of Personnel Preparation has joint responsibility with the Division of Assistance to States in the implementation of the COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT (CSPD) as outlined in the Public Law 94-142 regulations, Section 121a.380 through 121a.387 as set forth on pages 42492-93 of the Federal Register, August 23, 1977, Vol. 42, No. 163. It cannot be stressed too strongly that each State's applicants must attend to the implementation of the system. It is your responsibility as an applicant to be fully aware of the language of your State's CSPD as submitted to the Bureau in the Annual Program Plan (APP) required for your State's participation in funds provided through Public Law 94-142. Applications should reflect your State's or Region's needs as set forth in the APP (page 9).

KENTUCKY

SELECTION OF COMMITTEE MEMBERS

The degree of expertise and interest possessed by each member, professional or consumer, is an influencing factor in selection to serve on the Committee for the Comprehensive System of Personnel Development. Knowledge and/or a general understanding of the field of education for the handicapped, and interest and commitment to personnel development are valuable resources. Guidelines for selection of membership on the Committee for the Comprehensive System of Personnel Development include the following:

I. For all members:

1. Interest in the preparation of personnel to provide educational and/or support services to handicapped children;
2. Willingness/ability to devote time to committee activities;
3. Recognized leadership;
4. Experience/expertise in the areas under consideration;
5. Willingness to express ideas; and
6. Willingness to identify and represent views of the group he/she is to represent.

II. For members of representative groups:

A. Parents of handicapped youth, handicapped individuals, advocacy groups:

1. Familiarity with problems in obtaining needed educational and related services;
2. Awareness of specific problems often encountered by handicapped children in the schools; and
3. Awareness of appropriate educational goals and objectives for handicapped children.

B. Teachers, personnel from comprehensive care centers, Department for Human Resources residential facilities, and private organizations with educational programs for exceptional children:

1. Awareness of information, skills, and resources needed by personnel involved in providing educational and support services to handicapped children; and
2. Awareness of local resources which may be used to help implement the inservice training system.

C. College and university personnel, staff development personnel from Department for Human Resources facilities, and private organizations:

1. Awareness of advantages and disadvantages of various inservice training models;
2. Awareness of regional, state, and national resources which could facilitate inservice training of local school district personnel;
3. Awareness of innovative and effective instructional methods and materials appropriate for exceptional children.

Appendix B-7
VERMONT

I. PARTICIPATORY PLANNING

EHA-B LEAP # _____ - 81

A. Who participated directly in the development of this inservice plan?

Personnel Group	Number
Regular Class Teachers	
Special Educators	
Administrators	
Support Personnel	
Parents	
Paraprofessionals	
Board Members	

"Development" is defined as providing direct input or reviewing proposed plans.

B. What is the nature of the planning process?

_____ Planning Team

_____ Committee

_____ Task Force

_____ Special Meeting

C. How frequently does this group meet?

_____ Once Annually

_____ Monthly

_____ Quarterly

_____ When Necessary

D. Is all inservice training (General Education as well as Special Education) planned -

by the same people? _____ yes _____ no

in the same manner? _____ yes _____ no

E. Additional Information (Optional):

SPECIAL EDUCATION STAFF AND TRAINING NEEDS
IN MASSACHUSETTS 766

INSTRUCTIONS

1. The information in this table will be used in responding to federal reporting requirements and in refining the Massachusetts Comprehensive System for Personnel Development required under P.L. 94-142.

2. All information marked "CURRENT" should be as of October 1, 1978.

3. DEFINITIONS

NUMBER CURRENTLY EMPLOYED: Number of employees in each category currently on the payroll of this school.

NUMBER OF ATTRITIONS 1977-78: Number of positions which were vacated between September 1, 1977 and August 31, 1978 due to retirements, resignations, promotions, and reductions in force.

NUMBER OF CURRENT VACANCIES: Number of available positions for which no one has been formally hired.

NET CHANGE IN POSITIONS ANTICIPATED 1979-80: Estimated number of positions which will be added or eliminated in this school for the school year 1979-80. Please note direction of change, i.e., + or -.

IN-SERVICE TRAINING NEEDS:

LONG TERM - Number of currently employed staff (full and part-time) who would like to enroll in a field-based in-service training program leading to a new degree or credential (Approval/Certification).

SHORT TERM - Number of currently employed staff (full and part-time) who would like to participate in courses or workshops (not part of an approved training program).

NOTE: Enter the actual numbers of full-time and part-time employees in each category, not the full-time equivalent.

4. If you have experienced difficulty in finding qualified applicants for one or more positions, please place an "X" in the appropriate section(s) of the last column.
5. Questions and comments on this table should be addressed to:

Cynthia Gilles, Director
Special Education Manpower Project
Division of Special Education
617/727-5770

PUBLIC LAW 94-142 SURVEY

Survey #3

SPECIAL EDUCATION MANPOWER INFORMATION: SUPERINTENDENT SURVEY

James Madison University

The purpose of this questionnaire is to collect information which relates to manpower needs in special education. Information is sought that will help to determine manpower trends in special education and to determine the potential supply of special education teachers in the present and future. Additionally, your perception of "new" types of professional persons you feel are necessary in special education is sought.

If you have questions about items on the questionnaire, please contact Dr. Julius B. Roberson at 703-433-6572.

Name of person completing questionnaire _____

Title _____

School Division _____

- A. Please estimate how many special education teachers in each of the following endorsement areas are currently employed (1979-80 school year) in your school district in each of the specified employment areas.

CURRENT SPECIAL EDUCATION PERSONNEL EMPLOYED

Endorsement Areas	LOCATION OF TEACHING STATIONS					TOTAL

PROJECT TIME

Needs Assessment: Bicultural/Bilingual Mainstream

This needs assessment consists of three rating scales. The first two ratings are used to determine the value of certain teaching competencies. The third rating is confidential. No one but the project codirector and director will view the third rating. To ensure confidentiality, please use the last four numbers of your social security or your telephone number in the upper right hand corner.

Please rate the following competencies:

	Value of the competency for the regular classroom teacher.	Competency that you would like training in.	Rank your current skill level.	I.D. _____
1. Plan and maintain a system to utilize the assistance of successful teachers of bicultural/bilingual mainstream (MS) students.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	<div style="writing-mode: vertical-rl; transform: rotate(180deg);"> Appendix C-3 ARIZONA </div>
2. Knowledge of Public Law 94-142	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
3. Write or participate in the writing of an IEP.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
4. Explain and demonstrate knowledge of due process safeguards as they relate to mainstreamed students, their parents and teachers.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
5. Gather information to determine the educational needs of the mainstreamed child.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
6. Evaluate the mainstreamed student's present level of functioning.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	

	Value of the competency for the regular classroom teacher.	Competency that you would like training in.	Rank your current skill level.	I. _____
7. Identification of ready made materials for use with bicultural/bilingual MS child.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
8. Identification and implementation of activities that motivate and assist bicultural/bilingual children feel successful.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
9. Knowledge of cultural background of bicultural/bilingual MS child.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
10. Demonstrate knowledge and ability to use simple phrase and commands in dominant language of bicultural/bilingual MS child.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
11. Design and implement interventions for dealing with racial/cultural upsets in class or on the playground.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
12. Design and implement interventions for individuals or groups that help children integrate with each other in school and play situations.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
13. Identify and/or generate techniques for making the bicultural/bilingual MS accountable for completing academic work.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
14. Evaluate the bicultural/bilingual MS student's present level of functioning in school work.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5	
15. Explain and describe knowledge of the referral process for bicultural/bilingual MS student.	1 2 3 4 5	1 2 3 4 5	1 2 3 4 5

OPINION SURVEY FOR SPECIAL EDUCATION
INSERVICE TRAINING

The Division of Special Education, Nevada Department of Education, sponsors many inservice training activities for educators. Your assistance in completing this survey is requested so that we might better plan for these training sessions.

Your position with the school district is:

() special education teacher; () resource room teacher; () building administrator; () district administrator; () special education coordinator; () speech teacher; () other _____

Area(s) of exceptionality _____

Directions

Rate each subject area according to your interest in or need for training. A score of one (1) means little need or interest. A score of five (5) indicates great interest or critical need.

INSERVICE TRAINING TOPICS

	<u>Need Scale</u>				
	little				great
1. Organizing the classroom	1	2	3	4	5
2. Individualizing instruction	1	2	3	4	5
3. Understanding the legal responsibility of teachers	1	2	3	4	5
4. Understanding the document entitled <u>Standards for the Administration of Special Education Programs</u>	1	2	3	4	5
5. Incorporating career education into curriculum activities	1	2	3	4	5
6. Disseminating career education information	1	2	3	4	5
7. Using school and community resources	1	2	3	4	5
8. Teaching culturally different students	1	2	3	4	5
9. Designing units of instruction	1	2	3	4	5
10. Understanding educational research	1	2	3	4	5
11. Assisting with the development of programs to help exceptional students gain acceptance in the regular classroom	1	2	3	4	5
12. Assessing special students' instructional level and learning needs	1	2	3	4	5
13. Designing alternate teaching strategies for students with learning problems	1	2	3	4	5
14. Designing Individualized Education Programs (IEPs)	1	2	3	4	5

INSERVICE TRAINING TOPICS

Need Scale
little great

- | | | | | | |
|--|---|---|---|---|---|
| 15. Implementing individualized teaching strategies with help of resource personnel | 1 | 2 | 3 | 4 | 5 |
| 16. Applying behavior management techniques that enhance positive interaction and facilitate learning for exceptional children | 1 | 2 | 3 | 4 | 5 |
| 17. Understanding the multidisciplinary approach to assessment and programming | 1 | 2 | 3 | 4 | 5 |
| 18. Working effectively with the multidisciplinary assessment team | 1 | 2 | 3 | 4 | 5 |
| 19. Evaluating student progress and using data to revise programs | 1 | 2 | 3 | 4 | 5 |
| 20. Using appropriate questioning techniques | 1 | 2 | 3 | 4 | 5 |
| 21. Responding to "coping" behavior of students | 1 | 2 | 3 | 4 | 5 |
| 22. Designing and using teacher-made tests | 1 | 2 | 3 | 4 | 5 |
| 23. Developing and using instructional media (use of audiovisual aids) | 1 | 2 | 3 | 4 | 5 |
| 24. Identifying goals and objectives appropriate to student needs | 1 | 2 | 3 | 4 | 5 |
| 25. Planning to meet long-term and short-term goals | 1 | 2 | 3 | 4 | 5 |
| 26. Planning activities and experiences logically (sequencing and task analysis) | 1 | 2 | 3 | 4 | 5 |
| 27. Utilizing precision teaching and/or systematic instructional techniques | 1 | 2 | 3 | 4 | 5 |
| 28. Building self-awareness and self-concept in students | 1 | 2 | 3 | 4 | 5 |
| 29. Enlisting parent/home support in meeting educational and social goals for students | 1 | 2 | 3 | 4 | 5 |
| 30. Organizing home study packets for vacation time and homebound students | 1 | 2 | 3 | 4 | 5 |

COMMENTS: Please list other topics you believe should be addressed.

A. Please indicate the average amount of time you are involved in developing an IEP: ____ 15-30 min.; ____ 30-45 min.; ____ 45-60 min.; ____ 60-75 min.; more ____

B. Have you recently attended any inservice workshops in special education sponsored by the Nevada Department of Education? ____ yes; ____ no. If ____ yes, was the training beneficial to you and the operation of your program? ____ yes; ____ no

THE UNIVERSITY OF THE STATE OF NEW YORK NEW YORK STATE EDUCATION DEPARTMENT OFFICE FOR EDUCATION OF CHILDREN WITH HANDICAPPING CONDITIONS REGIONAL RESOURCE CENTER

School or Agency _____ BOCES Area _____

Years of Teaching Experience (including this year) _____ Name (Optional) _____

Present Position Title: _____

PART I

This school year I interacted with the following number of children in each of the following categories (i.e. Handicapping Conditions and Chronological Age). Please place specific number in appropriate box(es):

CHRONOLOGICAL AGE _____ 0-2 _____ 3-5 _____ 6-8 _____ 9-12 _____ 13-18 _____ 19+

HANDICAPPING CONDITIONS

_____ Severely Crippled	_____ Educable Mentally Retarded	_____ Blind
_____ Physically Handicapped	_____ Severely Speech Impaired	_____ Multiply Handicapped
_____ Severely Emotionally Disturbed	_____ Other Speech Impaired	_____ Learning Disabled
_____ Emotionally Disturbed	_____ Deaf	_____ Deaf/Blind
_____ Trainable Mentally Retarded	_____ Hearing Impaired	_____ Other _____

PART II

Directions: The Bureau for Education of the Handicapped U.S. Office of Education, defines the Individualized Education Program process as including the following six steps. Number these steps in priority order (1 through 6) to indicate the areas in which you would like training.

- _____ Appraisal
Assessment of the child to determine most appropriate program.
- _____ Development of the Educational Program
Establishment of annual goals, instructional objectives, and specification of services.
- _____ Placement
Make recommendations for placement and protect educational rights of parents and children.
- _____ Implementation of the Educational Program
Selection of materials, methods and auxiliary services related in accomplishing instructional objectives.
- _____ Evaluation of Child Performance
Determine child's progress in relation to instructional objectives, appropriateness of materials, methods and auxiliary services, and appropriateness of child's placement.
- _____ Review of the IEP process
Determine appropriateness of individual IEP's and evaluate the IEP process.

24. Match instructional activities to instructional objectives.
25. Match instructional materials to instructional objectives.
26. Apply principles of learning to instruction.
27. Have knowledge of task analysis.
28. Use alternative instructional materials.
29. Construct appropriate instructional materials.
30. Apply techniques of behavior management.
31. Establish record keeping/management system.
32. Alter learning environment to accomodate student differences.
33. Work with parents and other support personnel involved in educating handicapped children.
34. Help handicapped students develop positive attitudes toward themselves.
35. Understand ongoing assessment of student performance.
36. Develop reports of student progress.
37. Revise program based on student progress.
38. Make recommendation to C.O.H. for future program placement.
39. Recognize a complete and appropriate IEP.
40. Determine the appropriateness of the IEP for each pupil.
41. Develop intervention strategies for improving inadequate IEP's when identified.
42. Know characteristics of an optional system-wide IEP Process.
43. Evaluate effectiveness of the IEP process (includes all of the preceding steps).
44. Develop intervention strategies for improving existing system-wide IEP Processes.

COMPREHENSIVE OKLAHOMA MANPOWER PLANNING
FOR EXCEPTIONAL LEARNERS
(COMPEL)
Staff Development Task Force
Survey of In-service Training Needs
of Public School Personnel

School District Name: _____

School District Size (ADA):

- ☐ 0 - 249
☐ 250 - 999
☐ 1,000 and over

Please complete this survey form and return in the enclosed envelope within one week of date of receipt.

1. Check the area(s) in which you feel a need for in-service training:

- ☐ Section 504: Architectural Barrier Removal and Program Accessibility
☐ F.L. 94-142 (Education of Handicapped Act)
☐ Individualized Education Programs
☐ Due Process Procedures
☐ Assessing Student Needs
☐ Classroom Management
☐ Teaching Techniques for Severely and Profoundly Retarded
☐ Curriculum Modification and/or Adjustment for Handicapped Learners
☐ Selection, Modification and Evaluation of Instructional Materials
for use with Handicapped Students
☐ Use of Anecdotal Records and Observations of Student Behavior
☐ Teaching Techniques for Handicapped Students (by category of handicap)
☐ Evaluation Techniques for Individual Student Learner/Group Programs
☐ Development of Effective Communication Skills Between Special Teacher/
Regular Teacher/Administrators/Supervisors/Support Personnel/Board
Members/Parents/Students
☐ Vocational/Technical Opportunities for the Handicapped
☐ Procedures for Establishing Sheltered Workshops for Handicapped Persons
☐ How to Choose Curriculum Materials for Particular Styles of Individual
Learning
☐ Techniques of Teaching Secondary Handicapped Students
☐ Confidentiality of Student Records
☐ Techniques for Working with Paraprofessionals
☐ Other _____

2. When/How would you prefer in-service training be offered?

- ☐ During School hours
☐ Summer courses
☐ On weekends
☐ Week nights
☐ Professional Improvement Meetings
☐ Summer Conference
☐ Other _____

3. Would you prefer in-service training to be offered for College credit?

- ☐ Yes
☐ No

4. Please check the position that most nearly describes your position:

- ☐ Superintendent or Director
☐ Principal or Assistant Director
☐ Counselor
☐ Psychometrist
☐ Learning Lab
☐ Vocational Teacher
☐ Regular Secondary Classroom Teacher
☐ Special Education Classroom Teacher (Secondary)
☐ Regular Elementary Classroom Teacher
☐ Special Education Classroom Teacher (Elementary)

Inservice Priority Survey

Authority for Data Collection: Comprehensive System of Personnel Development, Public Law 94-142 §1219380-386

Planned Use of Data: Planning inservice training activities during 1978-79.

PART I: INSERVICE NEED CATEGORY

Instructions: Respond to each item below in the following manner:

First, indicate the number which best represents your perception of your own level of need with respect to the skills or competencies listed. The term "need" means your own perception of a discrepancy between the level of competence you believe you should have and the level of competency which you actually have. A "high need" indicates a large discrepancy, and thus a critical urgency to improve competencies in this area; a "low need" represents a minor discrepancy. For some of the areas listed, it may be that you perceive no discrepancy or need of this type. Use the following code in indicating your responses: 0 = No Need; 1 = Very Low Need; 2 = Low Need; 3 = Medium Need; 4 = High Need; and 5 = Very High Need.

Secondly, mark the item (or items) under each lettered category that you believe is an immediate "highest priority" target or objective for training, regardless of your overall rating of the category.

	NO NEED	1	2	3	4	5 VERY HIGH NEED
1. <u>Assessment/Diagnostic Procedures</u>						
A. Instrument Development.	0	1	2	3	4	5
1. Developing basic skills assessment procedures						
2. Developing informal instruments						
3. Developing criterion-referenced instruments						
4. Developing procedures for nondiscriminatory testing						
5. Developing system for monitoring effectiveness of individualized programs (i.e., pupil progress)						
6. Other (specify): _____						
B. Instrument Utilization.	0	1	2	3	4	5
1. Using basic skills assessment procedures						
2. Using informal instruments						
3. Using criterion-referenced instruments						
4. Using nondiscriminatory testing procedures						
5. Using system for monitoring effectiveness of individualized programs (i.e., pupil progress)						
6. Other (specify): _____						
2. <u>Individual Educational Plan (IEP)</u>						
A. IEP Preparation	0	1	2	3	4	5
1. Utilizing assessment information						
2. Establishing annual goals						
3. Writing short-term objectives						
4. Other (specify): _____						
B. Admission, Review, and Dismissal (ARD) Process.	0	1	2	3	4	5
1. Conducting a staffing (meeting)						
2. Making placement decisions						
3. Arranging for multi-agency collaboration						
4. Other (specify): _____						
C. IEP Implementation.	0	1	2	3	4	5
1. Implementing IEPs						
2. Writing instructional plans based on IEPs						
3. Monitoring IEPs						
4. Other (specify): _____

NEEDS ASSESSMENT

DIVISION OF EXCEPTIONAL EDUCATION AND SUPPORTIVE SERVICES

In order to plan effectively for a coordinated inservice education program involving exceptional and regular education, your input and suggestions are crucial. Please rate each of the inservice objectives below according to your needs for professional growth by circling the appropriate number, according to the following three point scale. Be sure to rate every item. Feel free to add (and rate) an item you feel is not covered.

- 1 = essential
- 2 = useful, but not necessary
- 3 = unnecessary

First and second choices of Broad areas.

A. Communication Skills

Rank Order the Top Three.

- | | | | | |
|-----------|---|---|---|---|
| _____ 1. | Increasing communication and understanding between regular and exceptional education teachers about mainstreaming procedures and issues. | 1 | 2 | 3 |
| _____ 2. | Developing procedures for written communications in monitoring EEN students' progress. | 1 | 2 | 3 |
| _____ 3. | Developing skills in relating to and using administrative and supervisory personnel (principals, supervisors, PPS field counselors, program administrators, etc.) | 1 | 2 | 3 |
| _____ 4. | Using effective listening skills with adults and students. | 1 | 2 | 3 |
| _____ 5. | Developing skills as a consultant/advocate for exceptional education students in the schools. | 1 | 2 | 3 |
| _____ 6. | Increasing self-awareness of how one's actions affect others. | 1 | 2 | 3 |
| _____ 7. | Increasing awareness of the needs of minority/culturally distinct students. | 1 | 2 | 3 |
| _____ 8. | Raising awareness of what it is like to be handicapped (any disability area). | 1 | 2 | 3 |
| _____ 9. | Dispelling myths about handicapped students. | 1 | 2 | 3 |
| _____ 10. | OTHER (specify) _____ | 1 | 2 | 3 |

B. General Policies and Procedures

- | | | | |
|--|---|---|---|
| 1. Understanding the process of referral to the multidisciplinary team, assessment by the team, and programming into exceptional education. | 1 | 2 | 3 |
| 2. Becoming familiar with the criteria of exceptional education programs as put forth in legislation. | 1 | 2 | 3 |
| 3. Understanding the role and function of the IEP: exceptional and regular education (development of the document and its use in programming). | 1 | 2 | 3 |
| 4. Increasing knowledge of federal and state legislation mandating services to the handicapped (P.L. 94-142; Chapter 115). | 1 | 2 | 3 |
| 5. OTHER (specify) _____ | 1 | 2 | 3 |

C. Curriculum Issues

General

- | | | | |
|---|---|---|---|
| 1. Teaching exceptional education students school survival skills, i.e., following directions: "teaching pleasing behaviors". | 1 | 2 | 3 |
| 2. Obtaining knowledge of characteristics of students in various exceptional education programs. | 1 | 2 | 3 |
| 3. Developing curriculum for the non-reader. | 1 | 2 | 3 |
| 4. Adapting materials and teaching techniques to meet a variety of learning styles and on various levels. | 1 | 2 | 3 |
| 5. Individualizing instruction. | | | |
| 6. Team teaching as an aid in mainstreaming. | | | |
| 7. Using task analysis and/or a competency based instructional approach in the classroom. | 1 | 2 | 3 |

Elementary Emphasis

- | | | | |
|---|---|---|---|
| 8. Adapting regular MPS curriculum for exceptional education students. | 1 | 2 | 3 |

| 2. Using human relations personnel in the school. | 1 | 2 | 3 |
| 3. OTHER (specify) _____ | 1 | 2 | 3 |

F. Parent Concerns

- | | | | |
|---|---|---|---|
| 1. Understanding group and family dynamics and how they affect students in the schools. | 1 | 2 | 3 |
| 2. Improving the relationship between the family and the school system. | 1 | 2 | 3 |

3. Using both objectivity and empathy in handling parent-student situation. 1 2 3

4. Developing effective written and verbal communication skills in working with parents as part of a student's total programming. 1 2 3

5. OTHER (specify) _____ 1 2 3

G. Specialized Inservice Topics

1. Utilizing basic sign language when working with deaf students. 1 2 3

2. Becoming aware of how deaf children learn language. 1 2 3

3. Developing auditory skills for deaf students. 1 2 3

4. Modifying curriculum strategies and behavior management techniques in the regular classroom for various severity levels of handicapping conditions. 1 2 3

5. Understanding the special needs of bilingual exceptional education students. 1 2 3

6. Developing curriculum, materials and methods for bilingual children in regular and/or exceptional education classes. 1 2 3

7. Integrating autistic children into the school setting. 1 2 3

8. OTHER (specify) _____ 1 2 3

LEA COMPREHENSIVE TRAINING NEEDS ASSESSMENT

This Needs Assessment is one method the school districts may use to determine areas of need for inservice purposes. These areas of need may then be covered in inservice sessions which are to be outlined on the P.L. 94-142 Flow-through Application, PI-2111, section III. J.

The Needs Assessment should be completed by a representative group of people, in addition to an Advisory Committee, involved with students with exceptional educational needs. A sampling of people who might complete the assessment could be drawn from the types of participants listed below.

After the individual forms have been completed, they may be summarized using one of these Needs Assessment forms and indicating the type of person reporting by using the code letter for the categories listed below. Persons completing this form should check those areas of inservice which are needed now (in the next school year) and/or in the future (sometime after the next school year).

A=Regular Education Teachers & Aides
B=Special Education Teachers & Aides
C=Regular Education Administrators
D=Special Education Administrators

II. NEEDS ASSESSMENT

A. Who participated in the district Needs Assessment?

Personnel Group \ Procedure	Survey	Informal Interview	Formal Interview	Existing Records	
Elementary Regular Class Teachers					
Secondary Regular Class Teachers					
Special Educators					
Administrators					
Support Personnel					
Parents					
Paraprofessionals					

B. The following criteria were met by the district Needs Assessment:

All district Special Educators participated - ☐ yes ☐ noAt least 20% of non-special education staff - ☐ yes ☐ no

C. The following content areas were identified as needs for further training:

Personnel Group \ Training Needs	Priority #1	Priority #2	Priority #3
Elementary Regular Class Teachers			
Secondary Regular Class Teachers			
Special Educators			
Administrators			
Support Personnel			
Parents			
Paraprofessionals			

D. Additional Information (Optional):

HOW TO CONDUCT A NEEDS ASSESSMENT

A Comprehensive System of Personnel Development needs assessment is a set of activities conducted to determine the district's inservice training and personnel development needs of professional and support staff. Needs assessment data should be the basis for planning inservice training, personnel development, dissemination and adoption of promising educational practices.

Inservice Training Needs

While all education personnel will have many inservice training needs, it is important to emphasize that our concerns here relate to those knowledge and skill areas which underlie the effective implementation of Public Law 94-142. The inservice needs of the various personnel categories (e.g. regular classroom teachers, psychologists, teachers of the Behavior Disordered, physical education teachers, etc.) cannot be determined without understanding how these various roles must function under provisions of Public Law 94-142.

A knowledge base is needed by all school personnel and would include:

1. Knowledge of laws regarding the handicapped.
2. Knowledge of handicapping conditions.
3. Knowledge of P.L. 94-142--terminology and definitions (e.g., "least restrictive environment," "free appropriate public education").
4. Understanding of appropriate instructional settings for the handicapped.
5. Knowledge of child evaluation procedures.
6. Knowledge of procedural safeguards.
7. Knowledge of IEP (individualized education program)
8. Knowledge of state and local guidelines for implementation of P.L. 94-142.
9. Knowledge of least restrictive placement possibilities.
10. Knowledge about related services and their availability.
11. Knowledge of special education instructional materials and media.
12. Knowledge of promising educational practices.

Skills needed to provide an appropriate education to handicapped children and youth vary according to responsibility differences between categorical personnel. Some skill needs common to all teachers would include:

1. Use resource room materials and staff.
2. Use peer tutoring, teacher aides, and volunteers.
3. Use diagnostic and prescriptive techniques.
4. Participate in, design, and implement IEPs.
5. Communicate with peers, parents, and pupils.
6. Monitor individual student progress.
7. Gather and interpret data about student performance.
8. Select appropriate curricular materials.
9. Adapt available curriculum.
10. Provide small group instruction based on identified student needs.

Some skills common to elementary educators would include:

1. Early identification of student needs.
2. Individualized direct instruction techniques.
3. Effective organization of the classroom for instruction.
4. Effective assessment of student strengths and weaknesses.
5. Effective classroom management skills.

Some skills common to secondary educators would include:

1. Teach the underachieving student.
2. Use peer tutoring procedures.
3. Modify strategies to reach content area goals in the areas of materials, expectations, instruction, and student performance levels.
4. Participate in team approaches to instruction.
5. Use effective questioning strategies.
6. Assess student modes or responses.

Some skills common to special services staff would include:

1. Child-Find.
2. Screening program development and implementation.
3. Evaluation/diagnostic procedures.
4. IEP process coordination.
5. Placement (Least Restrictive Environment).
6. Program review.

Some additional skills common to all educators regarding the IEP process would include:

1. Screen: Identify students with possible problems.
2. Refer: Identify students who may need special support services.
3. Comply with the law requiring nondiscriminatory testing and parent permission for individual evaluation.
4. Compile information related to students' educational, emotional, and physical functioning.
5. Ensure that due process procedures have been met in determining child's eligibility for special services.
6. Meet with parents to share assessment and evaluation data.
7. Participate as a team member in the development of IEPs.
8. Provide goals, objectives, and minimal competence criteria appropriate to a child's needs.
9. Implement the IEP developed by the school team for students in the classroom.
10. Monitor student progress to ensure that goals and objectives are appropriate and being carried out and that progress is evident.

The above listed areas of knowledge and skills might be condensed or elaborated upon and put in a checklist format. Competence could be assessed at the level(s) desired. A sample checklist format could read as follows:

CHECKLIST I: KNOWLEDGE BASE

What teachers need to know about P.L. 94-142

What level of competence do you expect of your teachers?

Can Identify	Can Define	Can Elaborate
--------------	------------	---------------

1. Knowledge of laws regarding the handicapped.
2. Knowledge of handicapping conditions.

NOTE: See sample of an alternative needs assessment instrument on page

Personnel Development Needs

The district's personnel records provide documentation of the need for certified special education teachers. The district may have regular education teachers who are willing to commit themselves to work toward special education certificates and serving in the district's special education program. This information should be documented as part of the needs assessment data.

Dissemination and Adoption Needs

The State Department of Elementary and Secondary Education is mandated to acquire, review, disseminate, and adopt (when appropriate) promising educational practices. Access to the information is presented elsewhere in this document. Prior to identifying the most relevant media, instructional material, and model programs, the district must know their special education program needs. This needs data might be acquired through staff requests, monitoring reports, formal needs assessment, or other activities.

Sources of Needs Data

The process for needs assessment may include both formal and informal techniques. No single instrument or procedure may be viewed as appropriate for collecting information from the broad range of personnel and content area which must be addressed. Some suggestions for gathering the information include:

- Personnel records
- Analysis of child find and census data compared to child count and current caseloads
- Monitoring reports
- Documentation of staff requests
- Formal needs assessment instrument
- LEA Personnel Development Committee

This list is not intended to be exhaustive; consider using other existing data sources and structures whenever possible and appropriate.

Organizing and Using Needs Data

The needs assessment data collected can then be translated into needs statements. Needs statements are listed without referring to the cause or reason. They are simple statements of the difference between what was expected and what is actually occurring. For instance, the director of special education documents the need for training teacher aides. The needs statement would read:

Sixteen of the eighteen special education teachers reported insufficient skill level on the part of teacher aides in the area of child management. (See Appendix for other examples)

The development of needs statements is not a necessary step. It is, however, helpful to developing measurable objectives for meeting personnel needs. The needs statement in the above paragraph stated as an objective would read:

During FY 81 the district will conduct four/two hour training sessions for the 18 teacher aides currently employed.

Further, the narrative that must be developed to describe the results of the needs assessment can be written quite easily using the needs statements. The personnel needs assessment is to serve the local district and the state in carrying out the CSPD; therefore, it should be reported in a manner that is clear to any reader of the CSPD.

When the district's inservice training and personnel development needs have been identified and needs statements written, they should be ranked in order of greatest or most important need. This priority listing of needs will help the district select the needs to be addressed at this time.

Objectives, activities, and evaluation are to be written on selected needs statements, using form 70-742-201 (See examples in appendix).

NOTE: THE TABLE ENTITLED, "DISTRICT INSERVICE TRAINING NEEDS," FORM 70-742-214, MUST BE COMPLETED. (SEE SECTION III: DATA REQUIREMENTS)

SAMPLE NEEDS SURVEY FOR SPECIAL EDUCATION INSERVICE TRAINING AND STAFF DEVELOPMENT

Your assistance in completing this survey is requested so that we might better plan inservice training and personnel development.

The Bureau of Education for the Handicapped (BEH), U.S. Office of Education, defines the Individualized Education Program (IEP) process as including the following six steps. Rank these in priority order (1 is high; 6 is low) to indicate the areas in which you would like training:

- ☐ Appraisal (Assessment of child to determine appropriate program)
- ☐ Developing the I.E.P. (Establishing annual goals, instructional objectives, and specifying services)
- ☐ Placement (Recommendations for placement and protection of rights of parents and children)
- ☐ Implementation of Educational Program (Materials, methods, and related services needed to accomplish objectives)
- ☐ Evaluation of Child Performance (Determine child's progress looking at objectives, methods, related services and appropriateness of child's placement)
- ☐ Review of I.E.P. Process (Determine appropriateness of individual I.E.P.s and evaluate the I.E.P. process)

1. Planning inservice training and personnel development activities for the year, which of the following would you select as the most helpful resources for securing training assistance? (Select two)

☐ Graduate Course or Program ☐ State Department Specialists
☐ Professional Development Center ☐ School District Specialists
☐ Building Personnel and Resources ☐ Trained University Personnel
☐ Other

2. How much time, without financial reimbursement, beyond the regular school hours would you be willing to devote to inservice training and/or personnel development activities for the next school year?

☐ No additional time ☐ 7 - 9 hours per month
☐ 1 - 3 hours per month ☐ 10 - 12 hours per month
☐ 4 - 6 hours per month ☐ More than 12 hours per month

3. Rate each subject area according to your interest or need for training. A score of five (5) indicates great interest or critical need.

<u>Inservice Training Topics</u>	<u>Needs Scale</u>

INSERVICE TRAINING PLANS FOR
ACTIVITIES FUNDED THROUGH EHA PART B FUNDS

Narrative - Overview

The need exists for the establishment in each district of a comprehensive inservice training program for both special and regular education teachers, support personnel and administrators regarding the various needs of exceptional children. In order to support local training efforts, the Department of Public Instruction is planning to utilize the following resources:

1. Department staff will write a single project proposal to be submitted to the State Board of Education;
2. Department staff will assist each district in developing and conducting the district training program;
3. \$95,829 of FY '77 EHA Part B funds will be made available to districts, special schools and agencies;
4. Mid East Regional Resource Center (MERRC) consultative services will be used for both planning and conducting the training.

Each district is to appoint a committee consisting of representatives of both regular and special education teachers, support personnel and administrative staff. The committee will prioritize training needs within the district, recommend in-service activities and identify the individuals who will participate in the training efforts. The training program should be developed within the needs identified in the district FY '78 Part B application pertaining to unserved and underserved handicapped children and the Needs Assessment for Teachers and Administrators.

A district representative will then meet with DPI and MERRC staff to identify how the available resources can best be utilized. A proposal will be prepared by the district and reviewed by Department staff. Resources will be available to New Castle County districts for the period July 1 to August 31, 1978 and for Kent and Sussex Counties for June 1 to August 31, 1979.

Each district must complete an expenditure of funds report on July 15, August 15 and September 15, 1978 so as to insure that FY '77 funds are fully expended by September 20, 1978. A final project evaluation report will be due by September 30, 1978.

The district activities conducted during the summer of 1978 may be followed-up during the remainder of FY '79 with additional Part B supported training activities. The district Part B Plan for "Y '79 will specify the continuing staff development activities.

PART II

EHA PART B
TRAINING PLAN WORKSHEET

Workshop Title:

District:

Brief Description of Program and Name of Workshop Leader or Consultant	Workshop Objectives	Workshop Activities	Workshop Timeline And Location	Workshop Participants Type and Number of Personnel to be Included	Workshop Evaluation Strategies	Workshop Resources EHA, Part B MERRC, District and/or State
					157	

Project Objectives

Each applicant will, utilizing a team of local teachers, administrators, and support personnel, develop a district staff training plan which should identify the types of training needed, objectives, evaluation strategy, activities, personnel involved and resource allocation.

Each applicant will establish an internal management system to insure that staff attend the services, and that sessions are conducted in an organized and profitable manner.

Each applicant will insure that, when appropriate, both regular and special education teachers participate in planning and conducting the workshops.

Each applicant will insure that representatives of private schools have an opportunity to participate.

Each workshop will focus upon specific problem areas relating to the education of handicapped children, i.e., non-discrimination in testing, improving parent participation in the IEP process, coordinating the IEP between regular and special education teachers, specifying student needs; and allow staff time to develop practical realistic solutions.

Activities and Resources

The applicant may use funds in part to buy materials, hire a consultant, pay staff stipends or substitutes and participant travel. Specific allocation of funds will be developed jointly in consultation between the applicant and DPI.

The following factors should be considered by the applicant in the development of the training plan.

1. Participation should be voluntary.
2. Teachers and support personnel should have an active role in developing the plan.
3. Practical "doing" activities should be stressed.
4. Teachers should have an opportunity to try out new ideas and share their experiences.
5. Interaction between regular and special education teachers should be stressed.

Resources will be allocated to each applicant based upon the October 1, 1977 child counts. The total number of children reported was multiplied by \$6.85 per child.

The amount of funds to be used for participant stipends for ten month employees shall be \$6.35 per hour when no document is being produced and \$10.55 per hour if a document is being produced. Travel shall be at the rate of 10 cents per mile. Car pooling should be encouraged. Any consultants which may be hired by the school district are required to obtain a State of Delaware Business License before they can perform any service. The district should furnish the consultant with an application for Business License. Consultants will pay the \$50.00 fee for the General Service Business License.

TRAINING PLAN FORMAT

The following items are to be included in the training plan:

1. Name of administering district, individual submitting the plan, date of submission and the names/titles of individuals involved in developing the plan.
2. A description of the process used for determining the inservice training needed.
3. Completion of the training plan work sheet(s).
See attachment 1.
4. Budget forms and compliance statements.

The timeline for the training grants will be as follows:

- | | |
|---|---|
| 1. April 1 - May 1 | Meeting on county-wide resource utilization with DPI and MERRC |
| 2. May 15 | Submission of plan to DPI |
| 3. May 15 - May 30 | Review by DPI |
| 4. June 1 - August 31
July 1 - August 31 | Kent and Sussex County Program Period
New Castle County Program Period |
| 5. July 15, August 15
and September 15 | Expenditures of funds report due DPI (see Attachment 2) |
| 6. September 30 | Final report due DPI on project evaluation and funds expended |

Oregon

Classroom materials
 Teacher reference books
 Student activities (ideas, dittos, etc.)
 Educational games
 Weighted classroom membership
 Publicity
 No Saturday inservice
 Retreat-type workshops
 Trip to Hawaii free
 Inservice held at teaching site
 Recognition for work performed
 Free time
 Authorization to train other district teachers after demonstrating competency
 District recognition
 Travel opportunity - district sponsored
 State recognition
 Leadership roles after training
 Meaningful responsibilities - guaranteed use of effort
 A paid workshop outside of regular school time
 Smaller core loads
 An opportunity to attend a conference away from home - motel and meals paid for
 Ideas of participants written up in newsletters and disseminated
 Worthwhile sessions - key speakers - keep the cost down
 Diversify the roles represented by the district representatives
 District credits toward meeting hours required for advancement on salary schedule
 Student teachers
 Teaching materials, plans, reference material
 Outstanding instructors
 Presenters should be people from the field who have had both failures and good success
 Greater materials allotment and control over selection
 Tokens which could be exchanged for freedom from Mickey Mouse school procedures
 Inservice should provide for a good deal of follow-up and release time for teachers to actually implement newly acquired skills
 Hour for hour time pay off; time spent at inservices would be given back in extra vacation days, etc.
 Money for individuals to add to their own school department budgets to purchase things they want
 Affective rewards such as commendations in files, etc.
 Advancement on the salary schedule for number of hours of participation
 No inservice on scheduled teacher work days
 Pay for substitutes for those who attend inservice programs
 Certificate
 Fun time
 Group free lunch, etc.
 It should qualify for professional growth incentive credit
 Design a series of courses which, upon completion, would result in the achievement of a Certificate in Special Education, issued by a college or university
 Completion of inservice series yields college credit toward handicapped learner certificate
 Inservice efforts are action-oriented, well planned, with emphasis on the practical
 Anthology of "Tricks of the Trade" gathered at the meetings

Demonstrate some effective teaching following the training

Cookies

Suggestions for activities that regular classroom teachers can employ to aid handicapped students in their programs

"Dictionary" to explain terms used at placement and planning meetings; e.g., perceptual dysfunction

Extended contact time

Teacher center approach

Allow opportunity to have exchange time for those involved

Lots of publicity

A title

Minimum expense to the teacher

Payment of mileage - meals

Certificate of accomplishment

Handouts on teaching procedures

Guarantee of follow-up after the workshop (training session) to iron out the bugs, etc.

Retreat atmosphere, paid for as part of the training

Meetings at convenient places

SPECIAL EDUCATION TRAINING PROGRAMS OFFERED
BY MASSACHUSETTS COLLEGES AND UNIVERSITIES

A. Key to type of program or course work offered

ADM - Administrator of Special Education
 GEN - Generic Special Teacher of School Age Children with Mild Special Needs
 MOD - Teacher of School Age Children with Moderate Special Needs
 SEV - Instructor of School Age Children with Severe Special Needs
 VIS - Teacher of School Age Children with Sensory Handicaps: Vision
 AUD - Teacher of School Age Children with Sensory Handicaps: Audition
 SP - School Psychology
 PER - Peripatologist
 SH - Speech and Hearing
 SPA - Speech Pathology and Audiology
 ECE - Early Childhood Special Education
 VOC - Vocational Special Education
 APE - Adapted Physical Education
 OT - Occupational Therapy
 PT - Physical Therapy
 REG - Regular Education/Special Education
 GC - Guidance and Counseling
 BIL - Bilingual Special Education
 REC - Therapeutic Recreation

Note: *Italics* denote approved programs audited by the Massachusetts Department of Education leading to approval of special needs personnel as of November 1, 1977. The first six areas in the above list (ADM, GEN, MOD, SEV, VIS, AUD) are the only areas for which the Department of Education, Bureau of Teacher Certification offers approval.

B. Key to level of program or course work offered

x - Course work (degree or non-degree)
 u - Undergraduate program
 g - Graduate program
 l - License program

SUGGESTIONS FOR IMPLEMENTATION

Explication of Requirements
Concerning Special Education for Elementary and
Secondary Provisional Certificate Programs

REQUIREMENT I: KNOWLEDGE OF THE CONCEPT OF LEAST RESTRICTIVE ALTERNATIVES
AND IMPLICATIONS FOR THE INSTRUCTIONAL PROCESS

To accomplish the above requirement the following suggestions were made:

The elementary and secondary level teacher will be able to:

1. define "least restrictive alternative;"
2. identify instructional options described in the State Board of Education Policies and Administrative Procedures for Special Education;
3. identify instructional professional personnel, supportive professional personnel, and paraprofessional personnel involved in the delivery of special education services as defined in the State Board of Education Policies and Administrative Procedures for Special Education; and
4. identify related services which may be provided to an eligible handicapped student as described in the State Board of Education Policies and Administrative Procedures for Special Education.

REQUIREMENT II: KNOWLEDGE OF THE CHARACTERISTICS AND LEARNING DIFFERENCES
OF HANDICAPPED STUDENTS

To accomplish the above requirement the following suggestions were made:

The elementary and secondary level teacher will be able to:

1. define terms and identify characteristics of learning significant to the education of the following:
 - a. mentally retarded
 - b. learning disabled
 - c. emotionally disturbed
 - d. physically handicapped
 - e. speech handicapped
 - f. pregnant students
 - g. auditorially handicapped
 - h. visually handicapped
 - i. multiply handicapped
 - j. autistic

2. describe the role of the regular classroom teacher in working with students with handicapping conditions in terms of:
 - a. child identification
 - b. individual assessment
 - c. individual educational plan development
 - d. individual instruction
 - e. related services
 - f. individualized educational plan review
 - g. least restrictive environment
3. identify eligibility criteria for special education related services for each handicapping condition set forth in state guidelines for special education
 - a. mentally retarded
 - b. learning disabled
 - c. emotionally disturbed
 - d. physically handicapped
 - e. speech handicapped
 - f. pregnant students
 - g. auditorially handicapped
 - h. visually handicapped
 - i. multiply handicapped
 - j. autistic

REQUIREMENT III: KNOWLEDGE AND SKILL IN INFORMAL ASSESSMENT AND A VARIETY OF INSTRUCTIONAL TECHNIQUES AND PROCEDURES FOR IMPLEMENTING THE EDUCATIONAL PLAN FOR HANDICAPPED STUDENTS

To accomplish the above requirement the following suggestions were made:

The elementary and secondary level teacher will be able to:

1. determine the student's present educational level through the use of
 - a. standardized assessment
 - 1) general achievement tests
 - 2) diagnostic tests in subject areas
 - b. informal assessment
 - 1) informal diagnostic tests
 - 2) diagnostic teaching
 - 3) systematic observation
 - 4) commercially prepared prescription kits which supplement instructional packages

2. relate present educational level to long-term goals and short-term instructional objectives using published sequences, published collections of objectives, and defined curriculum(s) and/or teacher written objectives in the areas of:
 - a. reading
 - b. writing
 - c. arithmetic
 - d. spelling
 - e. gross/fine motor development
 - f. visual/auditory perception
 - g. language development
3. modify regular instructional programs through strategies, techniques, and/or resources to accommodate handicapping conditions where necessary for achievement and/or adjustment:
 - a. child identification
 - b. individual assessment
 - c. individual educational plan development
 - d. individual instruction
 - e. related services
 - f. individualized educational plan review
 - g. least restrictive environment

REQUIREMENT IV: KNOWLEDGE OF THE ADMISSION, REVIEW, AND DISMISSAL PROCESSES
AND UNDERSTANDING OF THE INDIVIDUALIZED EDUCATIONAL PROGRAM
FOR HANDICAPPED STUDENTS

To accomplish the above requirement the following suggestions were made:

The elementary and secondary level teacher will be able to:

1. describe the child identification and the three stages of the individual assessment as presented in the State Board of Education Policies and Administrative Procedures for Special Education
2. describe the role of each of the participants involved in the child identification and individual assessment process presented in the State Board of Education Policies and Administrative Procedures for Special Education
3. identify procedural safeguards for handicapped students and their parents mandated by Public Law 94-142 and the Texas Education Agency's policies and administrative procedures
 - a. guarantee of complete due process procedures
 - b. assurance of parent or guardian consultation

- c. assurance of special education and related services being provided to all handicapped children in the "least restrictive" environment
 - d. assurance of nondiscriminatory testing and assessment
 - e. a guarantee of policies and procedures to protect the confidentiality of data
 - f. assurance of the maintenance of an individualized program
 - g. assurance of effective policy guaranteeing the right to all handicapped students to a free, appropriate public education at no cost to parents or guardian
 - h. assurance of a surrogate to act for any student when parents or guardian are either unknown or unavailable or when the child is a legal ward of the state
- 4. describe the admission, review, and dismissal committee, its membership, responsibilities, and processes
 - 5. identify the required components of an individualized educational plan, describe role of general educator, and be able to participate in the development of an individualized educational plan which includes:
 - a. the student's current educational status
 - b. educational goals needed for the student
 - c. instructional objectives leading to each goal
 - d. instructional and service requirements to allow the program to operate
 - 6. identify modifications and adaptations which can be made in general education to accommodate the learner who is handicapped

GLOSSARY

- 1. standardized assessment -- achievement relative to norm
- 2. informal assessment -- assessment through informal tests and observation to discover what a student can or cannot do rather than in terms of achievement relative to some norm
- 3. information diagnostic tests -- inventories and checklists used to analyze a student's performance on a task and to identify error patterns
- 4. diagnostic teaching -- identification through trying various teaching strategies the most effective for use with a particular student
- 5. systematic observation -- observation of student at work to determine efficient or inefficient behaviors; learn what student can do and also how he or she approaches a task
- 6. commercially prepared prescription kits -- tests contained in instructional packages designed to assess a student's ability to perform the skills included in the packages

7. diagnostic tests -- tests in reading or arithmetic, for instance, which enable one to determine students' specific instructional levels in particular areas; with some evaluation instruments, one can also analyze student performance to determine what content has been learned and to designate the next appropriate step
8. criterion referenced tests -- typically assess one particular skill or content area; help determine specific strengths and weaknesses; results show what skills or content student has mastered and indicate next appropriate instructional point more precisely than either general achievement tests or even most formal diagnostic tests

Appendix E-3

JAMES MADISON UNIVERSITY
PUBLIC LAW 94-142 SURVEY #1

The purpose of this questionnaire is to collect information which relates to efforts made by teacher education institutions to implement PL 94-142. Institutions will vary in the degree of progress made in providing for PL 94-142. Some will have well developed programs, while others may have been unable to develop plans for such provision. The information sought will relate to the general nature of the teacher education program, status of efforts related to the preparation of teachers to deal with provisions of PL 94-142 and the current needs of your institution relative to preparing regular education teachers to teach the handicapped. Please return this questionnaire on or before February 21, 1980.

If you have questions about items on the questionnaire, please contact

Dr. William Smith at (703) 433-6486.

I. General Structure of Teacher Education Programs

- A. What is the chief administrative unit for administering teacher education at your institution?

☐ School of Education

☐ Division of Teacher Education

☐ Education Department

☐ Psychology Department

☐ Other (Specify) _____

- B. List the steps which are followed at your institution in adding or changing courses in teacher education.

- C. Indicate below the administrative unit which is responsible for advising students enrolled in the various endorsement areas.

ENDORSEMENT AREAS				
Administrative Units	Secondary Educa. Academic (Hist., Math, Bio., etc.)	Secondary Educa. Vocations (Bus. Ed., Home Ec., DE, etc.)	ELED K-3	ELED 4-7
Dept. of Sec. Ed.				
Educ. Dept.				
Educ. Dept. & Academic Depts.				
C & I Dept.				
Psyc. Dept.				
Ed. Foundations Dept.				
Vocational Ed. Depts.				
Dept. of Elem. Ed.				
Other (Specify)				

- D. Indicate below the number of full-time faculty whose teaching load includes specialized professional education instruction or supervision for students in each of the endorsement areas. In columns 2-4 indicate the highest degrees held by these individuals.

	(1) Number of Faculty	(2) No. Holding Doctorate as Highest Degree	(3) No. Holding Masters as Highest Degree	(4) No. Holding Masters as Highest Degree
Secondary Education-- Academic				
Secondary Education-- Vocational				
Elementary Education-- (K-3 & 4-7)		180		

- E. Please indicate (a) how many graduates each of the following endorsement areas at your institution had during the 1978-79 academic year, (b) how many in each area are currently employed as teachers, and (c) how many graduates you anticipate in each endorsement area for the 1979-80 academic year.

	(a)	(b)	(c)
Endorsement Area	Number Graduated 1978-79	Number of 1978-79 Graduates Employed as Teachers	Number Anticipated to be Graduated in 1979-80
Regular Education: NI-3	9		
4-7			
Secondary (Academic Areas)			
Secondary (Vocational Areas)			

- F. How many weeks of student teaching are required of students seeking endorsement in each of the following areas?

Secondary Education (Academic) _____
 Secondary Education (Vocational) _____
 Elementary Education (NK-3) _____
 Elementary Education (4-7) _____

- G. As a general rule, do students enrolled in student teaching take course work while student teaching which is not directly related to the student teaching experiences? Yes _____ No _____

- H. How much classroom observation/participation experience do students seeking endorsement in the following areas have in public school classrooms prior to student teaching?

	Estimated No. Hours	Estimated Percentage Observation	Estimated Percentage Participation
Secondary Education (Academic)	_____	_____	_____
Secondary Education (Vocational)	_____	_____	_____
Elementary Education (NK-3)	_____	_____	_____
Elementary Education (4-7)	_____	_____	_____

- I. Does your institution maintain a collection of curriculum materials which exemplify those used in the public schools? Yes _____ No _____
 If yes, is this collection material
 _____ in the library
 _____ in a location other than the library

Part II: Teacher Training Relative to Teaching the Handicapped and PL 94-142

- A. For each general endorsement area in the table below, check the statement which best describes the current approach utilized in your teacher education program for familiarizing your students with respect to teaching the handicapped? If your institution does not offer endorsement in a particular area listed, leave the table blank for that endorsement area.

Current Approach	Endorsement Areas			
	NK-3	4-7	Secondary (Academic)	Secondary (Vocational)
(1) Our students enroll in a required special education course as a part of their program.				
(2) Various aspects of teaching the handicapped are integrated throughout several required courses in the students' programs.				
(3) We are currently constructing a plan for preparing our students to teach the handicapped and to implement PL 94-142.				
(4) Instructors have been encouraged to acquaint students with the law.				
(5) Our program does not currently address aspects of teaching the handicapped in great detail.				
(6) We prepare our students to teach the handicapped and to implement PL 94-42 in a concentrated workshop prior to student teaching.				

What approach do you believe would be most preferable at your institution for familiarizing students in your teacher education program with teaching the handicapped?

- B. Listed below are a collection of topics relative to teaching the handicapped and PL 94-142. For each endorsement area listed, indicate the degree of coverage of each of these topics in your teacher education program by circling the rating which best indicates the degree of coverage for each topic. A rating of 1 indicates superficial coverage, 2 indicates moderate coverage, and 3 indicates fairly indepth coverage of the topic.

Coverage Rating by Endorsement Area

Topic	NK-3	4-7	Secondary (Academic)	Secondary (Vocational)
(1) Rationale and Philosophy for mainstreaming-handicapped students.	1 2 3	1 2 3	1 2 3	1 2 3
(2) Background knowledge about PL 94-142 and its ten assurances.	1 2 3	1 2 3	1 2 3	1 2 3
(3) Knowledge about the various handicapping conditions and major characteristics of each of the subpopulations of the handicapped.	1 2 3	1 2 3	1 2 3	1 2 3
(4) Knowledge about screening and referral procedures for potentially handicapped students.	1 2 3	1 2 3	1 2 3	1 2 3
(5) Knowledge about the related services that are available to handicapped students.	1 2 3	1 2 3	1 2 3	1 2 3
(6) Knowledge about the various alternative environments that can be used to educate handicapped students.	1 2 3	1 2 3	1 2 3	1 2 3
(7) Knowledge and practice in constructing Individualized Educational Programs (IEP's).	1 2 3	1 2 3	1 2 3	1 2 3
(8) Knowledge and skills in using various procedures in the regular classroom to help the handicapped child academically.	1 2 3	1 2 3	1 2 3	1 2 3
(9) Knowledge and skills in using various procedures in the regular classroom to help the handicapped child with emotional and behavioral problems.	1 2 3	1 2 3	1 2 3	1 2 3
(10) Direct experience in working with handicapped students.	1 2 3	1 2 3	1 2 3	1 2 3
(11) Clarification of the meaning of "least restrictive environment".	1 2 3	1 2 3	1 2 3	1 2 3
(12) Knowledge about effective techniques for integrating handicapped students into the regular classroom.	1 2 3	1 2 3	1 2 3	1 2 3

Part III. Inservice Needs Relative to Teaching the Handicapped and PL 94-142

- A. Do you currently perceive the need for inservice training (assistance) for faculty at your institution in the area of teaching the handicapped?

_____ Yes _____ No

If your response to (A) was "yes", please complete the remaining items in Part III. If your response was "no", please indicate your name and title in the spaces provided at the end of the questionnaire.

- B. In Part II B, twelve topics were listed regarding PL 94-142 and teaching the handicapped. Indicate the needs of your institution on each topic by circling the appropriate number.

Topic	Need Rating				
	No Need				Strong Need
(1) Rationale and Philosophy for mainstreaming handicapped students.	1	2	3	4	5
(2) Background knowledge about PL 94-142 and its ten assurances.	1	2	3	4	5
(3) Knowledge about the various handicapping conditions and major characteristics of each of the subpopulations of the handicapped.	1	2	3	4	5
(4) Knowledge about screening and referral procedures for potentially handicapped students.	1	2	3	4	5
(5) Knowledge about the related services that are available to handicapped students.	1	2	3	4	5
(6) Knowledge about the various alternative environments that can be used to educate handicapped students.	1	2	3	4	5
(7) Knowledge and practice in constructing Individualized Educational Programs (IEP's)	1	2	3	4	5
(8) Knowledge and skills in using various procedures in the regular classroom to help the handicapped child academically.	1	2	3	4	5
(9) Knowledge and skills in using various procedures in the regular classroom to help the handicapped child with emotional and behavioral problems.	1	2	3	4	5
(10) Direct experience in working with handicapped students.	1	2	3	4	5
(11) Clarification of the meaning of "least restrictive environment".	1	2	3	4	5
(12) Knowledge about effective techniques for integrating handicapped students into the regular classroom.	1	2	3	4	5

3. If a two day inservice workshop were scheduled during the school year, during which months would it be most convenient for you to attend? (Check 2).

____(1) Sept.	____(5) Jan.	____(8) April
____(2) Oct.	____(6) Feb.	____(9) May
____(3) Nov.	____(7) March	____(10) June
____(4) Dec.		

4. Assuming that each of the following modes of inservice instruction is presented expertly, please indicate your degree of preference for each by ranking from 1 (most preferred) to 10 (least preferred).

____(1) Lecture	____(8) Role playing
____(2) Discussion groups	____(9) Supervised readings
____(3) Simulation	____(10) Other (specify)
____(4) Gaming	_____
____(5) Films	_____
____(6) Case Study	_____
____(7) Site visit	_____

Name of person completing questionnaire _____
Position _____
Name of Institution _____

Appendix E-3

JAMES MADISON UNIVERSITY PUBLIC LAW 94-142 SURVEY #2

The purpose of this questionnaire is twofold. First, information is sought concerning the current approach at your institution in providing instruction for your regular teacher education students with respect to teaching the handicapped and PL 94-142. Secondly, manpower information is sought that will help to determine the potential supply of special and regular education teachers in the present and future. Additionally, your perception of employment trends for special education graduates is sought. Please return the questionnaire on or before January 30, 1980.

If you have questions about items on the questionnaire, please contact Dr. Julium B. Roberson, Dean, School of Education and Human Services, James Madison University at (703) 433-6572.

I. Teacher Training Relative to Teaching the Handicapped and PL 94-142

- A. For each general endorsement area in the table below, check the statement which best describes the current approach utilized in your teacher education program for familiarizing your students with respect to teaching the handicapped. If your institution does not offer endorsement in a particular area listed, leave the table blank for that endorsement area.

Current Approach	Endorsement Areas			
	NK-3	4-7	Secondary (Academic)	Secondary (Vocational)
(1) Our students are required to enroll in a special education course as a part of their program.				
(2) Various aspects of teaching the handicapped are integrated throughout several required courses in the students' programs.				
(3) We are currently constructing a plan for preparing our students to teach the handicapped and to implement PL 94-142.				
(4) Instructors have been encouraged to acquaint students with the law.				
(5) Our program does not currently address aspects of teaching the handicapped in great detail.				

Part II. Manpower Information and Employment Trends

- A. Please estimate (a) how many entry level graduates each of the following endorsement areas at your institution had during the 1978-79 academic year, (b) how many graduates in each area are currently employed as teachers, and (c) how many graduates you anticipate in each endorsement area for the 1979-80 academic year.

Endorsement Area	(a) Number Graduated 1978-79	(b) Number of 1978-79 Graduates Currently Employed as Teachers	(c) Number Anticipated to be Graduated in 1979-80
Regular Education:			
NK-3			
4-7			
Secondary (Academic Areas)			
Secondary (Vocational Areas)			
Special Education:			
Mental Retardation			
Learning Disabilities			
Emotionally Disturbed			
Hearing Disorders			
Visually Impaired			
Speech Disorders			
Crippling Conditions			
Preschool Handicapped			
Other Special Education Areas (Specify areas)			

- B. Do you believe there will be a need for more (or fewer) special education graduates over the next five years in each endorsement area listed?

Endorsement Area	More will be needed	Fewer will be needed	No change in need is expected
Mental Retardation			
Learning Disabilities			
Emotionally Disturbed			
Hearing Disorders			
Visually Impaired			
Speech Disorders			
Crippling Conditions			
Preschool Handicapped			
Other Special Education Areas (please name)			

- C. Listed in the table below are some potential employment opportunities for graduates of the various special education endorsement areas. For each endorsement area listed, rate each employment opportunity from 1 to 5 according to your perception where 1 indicates the employment area of greatest need over the next five years and 5 indicates the employment area of least need over the next five years.

Employment Opportunities

Endorsement Area	Resource Room Teacher	Self-Contained Special Educ. Teacher	Itinerant Teacher	Homebound Teacher	Non-public School Setting
Mental Retardation					
Learning Disabilities					
Emotionally Disturbed					
Hearing Disorders					
Visually Impaired					
Speech Disorders					
Crippling Conditions					
Preschool Handicapped					

- D. What other types of positions or employment opportunities (other than the 5 types listed above) are you training your special educators to fill?

- E. Have you conducted any follow-up studies which assess the current progress of your regular education students whose preservice training included experiences with handicapped students?

☐ Yes ☐ No

If yes, please share the major findings below:

- F. Have you conducted any follow-up studies of your special education graduates to assess their current progress?

 Yes No

If yes, please share the major findings below:

- G. If your institution is engaged in any innovative activities in the area of preparing regular classroom teachers to meet the needs of the handicapped, please describe it here or attach a description of your activity.

Name of person completing questionnaire _____

Title _____

Institution _____

Virginia

PL 94-142 Questionnaire for Regular Classroom Teachers

Survey #4

The purpose of this questionnaire is to secure information about your beliefs concerning the adequacy of your preparation to instruct handicapped learners who may be assigned to you. Please answer each item as indicated. When you have completed the questionnaire place it in the addressed envelope and return it by February 7. If you have any questions please contact Dr. Julius Roberson, Dean of the School of Education and Human Services, James Madison University (703-433-6572).

This questionnaire is part of a cooperative study with the Virginia Department of Education. Your assistance is appreciated.

- (1) 1. What is the highest degree you hold?
 (1) bachelor's _____ (2) master's _____ (3) doctorate _____
- (2) 2. When did you receive the highest degree you hold?
 (1) 1979 _____ (2) 1978 _____ (3) 1977 or before _____
3. What teaching endorsement do you hold? (Check as many as apply.)
- (3) (1) _____ K-7
 (4) (1) _____ K-3
 (5) (1) _____ 4-7
 (6) (1) _____ Secondary (academic area)
 (7) (1) _____ Secondary (vocational areas)
 (8) (1) _____ Subject Area Specialists (K-12) (Music, Art, Physical Education, etc.)
 (9) (1) _____ None
- 10) 4. Which of the following statements best describes how you acquired your current teaching endorsement? (Check one)
- (1) _____ I received my endorsement when I received my bachelor's degree.
 (2) _____ I received my endorsement when I received my master's degree.
 (3) _____ I received my endorsement when I received my doctorate.
 (4) _____ I returned to a college or university after having earned a degree and completed requirements as outlined by the college or university.
 (5) _____ I worked through my school division to secure my endorsement and completed courses as outlined by the division and the State Department of Education.
- 11) 5. When did you complete endorsement requirements?
 (1) 1979 _____ (2) 1978 _____ (3) 1977 or before _____
- 12) 6. Did you complete endorsement requirements at a college or university in Virginia? (1) Yes _____ (2) No _____
- 13) If yes, did you complete endorsement requirements at one of the following institutions? (1) Yes _____ (2) No _____
- | | | |
|-------------------------|-------------------------|----------------------------|
| Longwood College | Randolph Macon College | Virginia Intermont College |
| Averett College | Emory and Henry College | Eastern Mennonite College |
| Mary Washington College | Clinch Valley College | Bridgewater College |
| St. Paul's College | Hollins College | Mary Baldwin College |
| University of Richmond | Roanoke College | Shenandoah College |
| | | Sweet Briar College |

7. Which of the following statements best describes your teaching assignment?
(Check one)

- (1) _____ Kindergarten-Primary
- (2) _____ grades 4-7
- (3) _____ secondary academic (Science, History, Art, P.E., etc.)
- (4) _____ secondary vocational (Home Ec., Business Ed., etc.)
- (5) _____ elementary subject area specialist (Music, Art, P.E., etc.)
- (6) _____ reading teacher

(15) 8. Which of the following statements best describes your current teaching situation? (Check one)

- (1) _____ self-contained classroom in an elementary school (K-7)
- (2) _____ self-contained classroom in a middle or intermediate school
- (3) _____ departmentalized assignment in an elementary school
- (4) _____ departmentalized assignment in a middle or intermediate school
- (5) _____ high school teacher
- (6) _____ Librarian
- (7) _____ Team teaching in an elementary or intermediate school
- (8) _____ Team teaching in a high school

(16) 9. How would you evaluate your preservice education for your present teaching assignment? (Check one)

- (5) superior _____ (4) more than adequate _____ (3) adequate _____
(2) less than adequate _____ (1) poor _____

(17) 10. How many students are assigned daily to you for instruction? (Check one)

- | | |
|------------------------|-----------------------|
| (1) _____ less than 15 | (6) _____ 36-49 |
| (2) _____ 15-20 | (7) _____ 50-75 |
| (3) _____ 21-25 | (8) _____ 75-100 |
| (4) _____ 26-30 | (9) _____ 100 or more |
| (5) _____ 31-35 | |

(18) 11. Have you been assigned learners who have been identified as having a handicapping condition? (1) Yes _____ (2) No _____

If yes, which of the following conditions have been present in the students assigned to you? (Check as many as apply)

- (19) (1) _____ Trainable Mentally Retarded
- (20) (1) _____ Educable Mentally Retarded
- (21) (1) _____ Physically Handicapped
- (22) (1) _____ Hearing Disorders
- (23) (1) _____ Learning Disabilities
- (24) (1) _____ Speech Disorders
- (25) (1) _____ Visually Impaired

If yes, have you been supplied information concerning the specific social, emotional, physical, and instructional needs of handicapped students assigned to you. (Check one)

- (1) ☐ I have received sufficient information about the students assigned to me.
 (2) ☐ I have received insufficient information about the students assigned to me.
 (3) ☐ I have received no information about the students assigned to me.

(27) If yes, is assistance from special educators available to you? (Check one)

- (1) ☐ available as needed
 (2) ☐ available sometimes
 (3) ☐ not available
 (4) ☐ don't know

(28) 12. Do you have a teacher's aide?
 (1) ☐ No (2) ☐ Part time aide (3) ☐ Full time aide

13. Indicate below which topics and activities were included in your preservice teacher education program which led to your endorsement. If such topics and activities were included, give your evaluation of the preparation provided to you in these areas.

A			B					
<u>Included</u>			<u>Evaluation if provided</u>					
			<u>Superior</u>	<u>More than Adequate</u>	<u>Adequate</u>	<u>Less than Adequate</u>	<u>Poor</u>	
(29)	A	Yes ____ No ____	Assisting other professionals in the identification of handicapped student	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(30)	B	Yes ____ No ____	Developing and guiding instructional activities for handicapped learners	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(31)	C	Yes ____ No ____	Individualized educational plans	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(32)	D	Yes ____ No ____	Public Law 94-142	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(33)	E	Yes ____ No ____	Working with parents of handicapped learners	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____

			<u>Superior</u>	<u>More than Adequate</u>	<u>Adequate</u>	<u>Less than Adequate</u>	<u>Poor</u>	
(34)	F	Yes ____ No ____	Characteristics of handicapped children	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(35)	G	Yes ____ No ____	Selecting teaching materials for handicapped learners	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
(36)	H	Yes ____ No ____	Educational rationale for mainstreaming	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____

14. If you checked yes to any items in question 13, what was the source(s) of the information acquired as a part of your preservice preparation? (Check as many as apply)

- (37) (1) ___ required course(s) in endorsement program
 (38) (1) ___ required special education course
 (39) (1) ___ elective special education course
 (40) (1) ___ individual study and reading

(41) 15. Did you observe or participate in classroom situations which contained handicapped learners while you were securing your endorsement?
 (1) Yes ___ (2) No ___

(42) 16. Are you now taking or have you completed a course for credit concerned with the handicapped since you finished your preservice program?
 (1) Yes ___ (2) No ___

(43) 17. Have you received any non-college credit inservice education related to teaching the handicapped?
 (1) Yes ___ (2) No ___

(44) 18. In light of your teaching experience to date which of the following statements best describes your need for information about teaching the handicapped? (Check one)

- (1) ___ have a great need for information
 (2) ___ have a moderate need for information
 (3) ___ have other inservice needs which are more pressing
 (4) ___ have no interest at this time in additional information about the handicapped

19

If you checked 1 or 2 above indicate below the areas where you have need for additional information. (Check as many as apply)

- (45) (1) _____ Identification of handicapped students
- (46) (1) _____ Developing and delivering instructional activities
- (47) (1) _____ Individualized Educational Plans
- (48) (1) _____ PL 94-142
- (49) (1) _____ Working with parents of handicapped students
- (50) (1) _____ Characteristics of handicapped children
- (51) (1) _____ Selecting teaching materials for handicapped students
- (52) (1) _____ Educational rationale for mainstreaming

(53) 19. Which of the following statements best describes your feeling about PL 94-142? (Check one)

- (1) _____ Very favorable
- (2) _____ Favorable
- (3) _____ Mixed
- (4) _____ Unfavorable
- (5) _____ Very unfavorable

All replies will remain anonymous. Results will be reported in summary form only.

PL 94-142 Questionnaire for Special Education Teachers

The purpose of this questionnaire is to secure information about your beliefs concerning the adequacy of your preparation to instruct handicapped learners assigned to you for instruction. Please answer each question as indicated. When you have completed the questionnaire place it in the addressed envelope and return it by February 7. If you have any questions please contact Dr. Julius Roberson, Dean, School of Education and Human Services, James Madison University, (703) 433-6572.

This questionnaire is part of a cooperative study with the Virginia Department of Education. Your cooperation is appreciated.

- (1) 1. What is the highest degree you hold?
(1) bachelor's _____ (2) master's _____ (3) doctorate _____
- (2) 2. When did you receive the highest degree that you hold?
(1) 1979 _____ (2) 1978 _____ (3) 1977 or before _____
3. Which special education endorsement(s) do you hold?
 (3) (1) mentally retarded _____
 (4) (1) crippling conditions _____
 (5) (1) emotionally disturbed _____
 (6) (1) hearing disorders _____
 (7) (1) learning disabilities _____
 (8) (1) preschool handicapped _____
 (9) (1) speech disorders _____
 (10) (1) visually impaired _____
 (11) (1) none _____
- (12) 4. When did you acquire your current teaching endorsement in special education?
(1) 1979 _____ (2) 1978 _____ (3) 1977 or before _____
5. Which of the following endorsements, if any, do you hold?
 (13) (1) _____ K-7
 (14) (1) _____ K-3
 (15) (1) _____ 4-7
 (16) (1) _____ Secondary (academic area such as history, math, English, etc.)
 (17) (1) _____ Secondary (vocational area such as home economics, business)
 (18) (1) _____ Other (specify) _____
 (19) (1) _____ Subject Area Specialist (K-12) (art, music, physical education, etc.)
 (20) (1) _____ None
- (21) 6. Have you taught in the regular classroom as a fulltime elementary or secondary teacher? (1) Yes _____ (2) No _____ if yes, indicate level(s).
 (22) (1) _____ K-3
 (23) (2) _____ 4-7
 (24) (3) _____ 8-12

7. Which of the following statements best describes how you acquired your current teaching endorsement in special education?

- (1) _____ I received my endorsement when I received my bachelor's degree.
- (2) _____ I received my endorsement when I received my master's degree.
- (3) _____ I received my endorsement when I received my doctorate.
- (4) _____ I returned to a college or university after having earned a degree and completed requirements as outlined by the college or university.
- (5) _____ I worked through my school division and completed course requirements as outlined by the division and the State Department of Education.

8. Did you receive your special education endorsement at a college or university in Virginia? (1) Yes _____ (2) No _____

(27) 9. Which of the following descriptions best describes your current assignment?

- (1) _____ working in a classroom setting with a group of children who possess handicapping conditions
- (2) _____ working as a resource teacher with children who possess handicapping conditions
- (3) _____ working in a center or a clinic
- (4) _____ homebound teacher

10. Which one of the following statements best describes the children you are now teaching?

- (1) _____ children who possess handicapping conditions which generally relate to my endorsement area(s)
- (2) _____ children who possess handicapping conditions some of which relate to my endorsement area(s)
- (3) _____ children who possess handicapping conditions which do not relate to my endorsement area(s)

(29) 11. Which one of the following statements best describes the chronological ages of the children you instruct?

- | | | |
|---------------------|-----------------------|--------------------------|
| (1) _____ 2-3 years | (4) _____ 9-12 years | (7) _____ 18 and older. |
| (2) _____ 4-5 years | (5) _____ 13-15 years | (8) _____ 2-18 and older |
| (3) _____ 6-8 years | (6) _____ 16-18 years | |

12. Listed below are some activities usually associated with the work of special education teachers.

First, place a check by those activities in which you have been engaged to date. Second, evaluate the adequacy of your preparation to perform the responsibilities associated with the activities in which you have been engaged.

			<u>Superior</u>	<u>More than Adequate</u>	<u>Adequate</u>	<u>Less than Adequate</u>	<u>Poor</u>
)	Yes ___ No ___	Identifying handicapped children	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(31)	Yes ___ No ___	Delivering instructional activities for handicapped children in a special setting or classroom	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(32)	Yes ___ No ___	Helping regular classroom teachers develop and/or deliver instructional activities for children in the mainstream or regular classroom	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(33)	Yes ___ No ___	Assisting administrative and supervisory staff from the central office	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(34)	Yes ___ No ___	Assisting other professional staff in the development of IEPs	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(35)	Yes ___ No ___	Assisting parents of handicapped children	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(36)	Yes ___ No ___	Evaluating the educational progress of handicapped children	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(37)	Yes ___ No ___	Selecting materials for use in programs for handicapped children	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___

13. From your experience to date how would you evaluate your preparation as a special education teacher?

			<u>Superior</u>	<u>More than Adequate</u>	<u>Adequate</u>	<u>Less than Adequate</u>	<u>Poor</u>
(38)	General Professional Education	(a) Knowledge of children who are not handicapped	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___
(39)		(b) Knowledge of general school organization	(5) ___	(4) ___	(3) ___	(2) ___	(1) ___

		<u>Superior</u>	<u>More than Adequate</u>	<u>Adequate</u>	<u>Less than Adequate</u>	<u>Poor</u>
(40)	(c) Knowledge of educational practices in the mainstream or regular classroom	(5) ____	(4) ____	(3) ____	(2) ____	(1) ____
General Special Education

| | (6) ____ I plan to enroll in a graduate program in a field other than special education. | | | | | |

All replies will remain anonymous. Results will be reported in summary form only.

Appendix F-1
Dissemination and Adoption Resources

The focus of Teacher Education/Special Education is on providing dissemination capability for developers of preservice and inservice training programs. The primary audience is the staff in personnel training programs. Technical assistance in marketing and linking techniques, as well as providing liaison services between possible uses and training resources, are some of the project's goals.

Teacher Education/Special Education East
203 Yoakum Parkway, Suite 1106
Alexandria, Virginia 22303

Existing resource and dissemination centers, such as Special Education Instructional Materials Centers and Regional Resource Centers.

The National Diffusion Network's (NDN) major function is to provide to LEAs information and services in the adoption and adaptation of exemplary programs. The NDN works closely with those who create the exemplary programs in providing information, materials, training and assistance to LEAs wishing to use these programs to improve their educational services.

APPLICATION FOR CONSIDERATION AS A PROMISING PRACTICE IN THE TOPICAL AREA OF:

SPONSORING EDUCATOR(s):

Name _____

Position _____

School/Program _____

Address _____

Telephone _____

DESCRIPTION OF PRACTICE:

HOW LONG HAS THIS PRACTICE BEEN IN PLACE? _____

EVIDENCE OF EFFECTIVENESS (Describe informal or formal evaluation techniques utilized, report findings, unanticipated benefits, and problem areas):

IMPLEMENTATION REQUIREMENTS (Consider staffing, training and financial requirements):

Please submit to the appropriate Regional Education Center no later than Friday, February 22, 1980.

V. DISSEMINATION

- A. Check those procedures which will be utilized to share information about inservice training activities within your local school district:

<input type="checkbox"/> department meeting	<input type="checkbox"/> workshop
<input type="checkbox"/> staff meeting	<input type="checkbox"/> establishing a visitation process
<input type="checkbox"/> school board meeting	<input type="checkbox"/> parent/community meeting
<input type="checkbox"/> daily school memo	<input type="checkbox"/> newspaper article
<input type="checkbox"/> circulated memorandum	_____
<input type="checkbox"/> newsletter	_____

- B. Check those procedures which will be utilized to share information about inservice training activities outside of your local school district:

<input type="checkbox"/> professional organization meeting	<input type="checkbox"/> ERIC-VERB System
<input type="checkbox"/> regional conference	<input type="checkbox"/> establishing a visitation process
<input type="checkbox"/> statewide conference	<input type="checkbox"/> newspaper article
<input type="checkbox"/> national conference	_____
<input type="checkbox"/> newsletter	_____

- c. Additional Information (optional):

AN OVERVIEW OF THE STATE VALIDATION OF TEXAS EDUCATIONAL PROGRAMS

State validation in Texas has been a successful service to educators for more than eight years. From an initial network of 35 programs chosen in 1972 for their exemplary approaches to individualized instruction, the program of validation has grown and expanded to include 125 school and regional education service center programs which have demonstrated success in a variety of program areas and educational approaches.

The state network is named Demonstration Programs for School Improvement (DPSI). It is one of the components of the Texas Diffusion Network (TDN), which also includes National Diffusion Network programs and Coordinating Information for Texas Educators (CITE), a research and information dissemination unit. All three components of the TDN are coordinated by the Texas Education Agency Division of Dissemination, with the assistance of experienced facilitators located in the 20 regional education service centers.

The entire validation program is supervised by a statewide steering committee which establishes policies and procedures and makes final decisions on validation. The chairman of the steering committee and more than one-third of its members are from outside the state agency.

The overall goal of state validation in Texas is to identify a group of successful programs to meet the needs of Texas educators and their clients. The criteria for "success" are somewhat different, according to the nature of the program nominated. For example, in basic skills programs, documentation of exceptional student achievement is a significant factor. With staff development and inservice programs, because of the typical lack of documented relationships between training and student achievement or changed teacher behavior, the evidence that the developmental needs of individual staff members have been met and that the development of staff competencies needed to improve or change programs on a district-wide basis has occurred must be strongly supported by personal testimony via interview as well as appropriate documentation.

In all cases, a program and its staff must appear successful and noteworthy to the onsite visiting team because educators must gain a positive impression when visiting a validated demonstration site. In addition to documentation of success, it is imperative that visitors considering adoption/adaption of a program feel that it is a good one for all who are affected, one in which "I could be beneficially and enthusiastically involved."

The eligibility criteria and steps in the validation process for DPSI are outlined on the enclosed sheet entitled State Validation: Eligibility Criteria and Selection Process. The heart of the process includes (1) submission of the appropriate self-report by the agency having the nominated program, (2) internal review of the self-report by state agency staff with expertise in the area of the program's emphasis, and (3) a one- to three-day onsite verification/observation visit by a team of specialists from school districts, regional education service centers, colleges and universities, and the Texas Education Agency. Agencies with nominated programs are assisted by trained education service center staff in completing self-reports and preparing for onsite visits. The internal review and screening of self-reports is done by at least two TEA staff members and sometimes a task force which includes specialists from outside the state agency. The use

of widely representative task forces for screening and reviewing self-reports is increasing. These task forces are formed as needed by the state validation coordinator and the TEA division responsible for the program area being dealt with.

During the last year, the state validation program has been revised to accept nominations of programs which are not limited to highly individualized classroom instruction. For example, although meeting the needs of individual students is important, the value of whole class instruction at appropriate times in reading or mathematics or physical education is recognized.

Another change in the validation program in recent months has been rapid expansion into areas such as staff development/in-service training, school communications programs, parent education, community education, guidance and counseling, and career education. In addition, for the 1980-81 cycle of validation, plans are being made to include a wider variety of vocational education, homemaking education, health education, and bilingual education programs. The source of funding is not a factor in eligibility for state validation.

It is projected that, by the fall of 1981, the state network will include approximately 200 programs throughout the state.

The materials attached should be considered as current versions only, most of which will undergo minor revisions in preparation for statewide solicitation of new nominations, which occurs annually about May 1. In addition, materials to facilitate examination of newly eligible program areas, such as content-specific supplements to the general self-report form in career education, gifted-talented education, writing, homemaking education, and others are in the first draft process and will be available by May 15, 1980.

For further information, contact William J. Scannel by telephone at (512) 375-5601 or Division of Dissemination, Texas Education Agency, 201 E. 11th Street, Austin, TX 78701.

NOMINATION FORM
DEMONSTRATION PROGRAMS FOR SCHOOL IMPROVEMENT
TEXAS DIFFUSION NETWORK

Before completing this form, please read the lists of eligibility criteria and obligations of validated programs on the reverse side. The nomination deadline is July 30, 1980. You may duplicate this form for nominating separate programs.

Program title, purpose, and ages or grade levels of clients, as applicable: _____

Below are the general and specific program categories in which nominations are being requested for 1980-81. Programs in areas not on the list will be considered upon request if time and funds permit.

General Categories: Please check the one which best corresponds to the nature of the program nominated.

- ☐ Curriculum/Instruction of Students (of any age, preschool-adult)
☐ Staff Development/Inservice Education

Program Areas: Check the area(s) below which are included in or characterize the program being nominated.

- ☐ Adult Education
☐ Bilingual Education
☐ Business Education
☐ Career Education
☐ Citizenship Education (social studies)
☐ Community Education
☐ Driver Education (semester-courses)
☐ English Language Arts
☐ Guidance and Counseling
☐ Health Education
☐ Industrial Arts
☐ Learning Resources Center
☐ Mathematics Education

- ☐ Nutrition Education
☐ Parent Education/Involvement
☐ Physical Education
☐ Reading
☐ Safety Education (K-6)
☐ Science Education
☐ Second Languages
☐ Special Education
☐ State Compensatory
☐ Theatre Arts
☐ Title I Regular
☐ Title I Migrant
☐ Vocational Education
☐ Other (specify) _____

Campus Location of Program (if applicable) _____

School District/Agency Name _____

District/Agency Address _____

Name of Superintendent/Executive Director _____
(signature if submitted by chief officer)

Program Contact Person (if known) _____
(A self report form designed to gather detailed information will be sent to the contact person designated by the superintendent or executive director.)

Funding Source(s) _____

Name of Person Making Nomination _____ (confidential)

Nominator's Address _____ Phone _____

Return to William J. Scannell, Division of Dissemination, Texas Education Agency,
201 E. 11th Street, Austin, TX 78701.

ELIGIBILITY CRITERIA

The program nominated must:

1. have been in operation two or more years.
2. have prospects of continuing in operation for two additional years.
2. be observable in operation.
4. have been designed to meet a documented need.
5. provide documentation showing it has been successful in meeting the need(s) for which it was designed.
6. be replicable in a similar school district or regional education service center.
7. be in compliance with applicable regulations if financed partially or totally by categorical state or federal funds.
8. be open to a verification visit by an individual or team designated by the state validation steering committee.

OBLIGATIONS OF VALIDATED PROGRAM DEMONSTRATION SITES

1. Serve a term of approximately two years, ceasing when the normal program schedule ends during the summer following the second year of the term.
2. Receive reasonable numbers of visitors by appointment at designated times appropriate to program and staff scheduling, student needs, etc.
3. Provide a place for orientation of visitors.
4. Hold brief visitor orientation and debriefing sessions.
5. Appoint a staff member to be responsible for orienting and guiding visitors.
6. Provide visitors with a brief printed program description and schedule.
7. Have visitors sign register provided by the Texas Education Agency and send completed register sheets to TEA.
8. If invited, send a representative to present the program at a regional or state awareness conference.
9. Provide written information which would be useful to another agency considering adoption or adaption.

NOMINATED PROGRAM SELF-REPORT

DEMONSTRATION PROGRAMS FOR SCHOOL IMPROVEMENT

TEXAS DIFFUSION NETWORK

Instructions: This form is for reporting the details of programs nominated for state validation. The form will be reviewed by a screening committee with expertise in the program's emphasis. It will be given to onsite observers if the program is selected for visiting. The form has 11 pages. If there are additional pages attached pertaining to the specific program area involved, they should also be completed.

Submit with this report a copy of any supporting document which may clarify or supplement information you provide. It is very important for reviewers to have copies of any printed materials which pertain to program management and evaluation. Following is a list of the kinds of materials you should send:

- a. documentation and results of needs assessment
- b. program plan, brochure, or manual
- c. curriculum guide
- d. locally developed tests, questionnaires, checklists
- e. summaries of program and participant evaluations
- f. program or activity schedules, descriptions

When the answer to a question is contained in a supporting document, please answer briefly on this form if feasible and cite the title and page number of the source.

7. Address (city, state, ZIP)			

INTRODUCTION TO THE 1978 COMPREHENSIVE TRAINING PLAN FOR WISCONSIN

The Comprehensive System of Personnel Development is a requirement under Section 121a.380-384 of the P.L. 94-142 rules and regulations used to implement Part B of the Education of the Handicapped Act. Under this general requirement, both the State Educational Agency (SEA) and each Local Educational Agency (LEA) must have a Comprehensive Training Plan that describes how each agency will raise the skills and increase the knowledge of all persons who work with handicapped children. The Wisconsin SEA has developed a program known as the Statewide Comprehensive Preservice and Inservice Training Program, which, in its broadest sense, offers training to every person who is involved in the life of a handicapped child, but is not limited to the list of persons found on the reverse side of page 1 of this document.

The thought behind P.L. 94-142 is that if the rules and regulations are implemented effectively, the chances for every handicapped child in Wisconsin to have a free and appropriate public education will be improved. Once the mechanical aspects of the P.L. 94-142 rules and regulations and Wisconsin's Chapter 115 are synchronized, the appropriate or best education for these children will be made possible through the general upgrading of the skills and understanding of those who are or can become qualified to work with handicapped children.

This Comprehensive Training Plan document for 1978 was devised to comply with the law following three regional meetings held in November, 1977, to gather ideas for needed inservice activities from a wide variety of individuals. The lists of activities herein are to be considered as suggestions only; the LEA is not limited to the activities found in these lists but may add others under any of the headings in the tables that are pertinent to the subject.

This document is not integrated into the P.L. 94-142 LEA Application/Plan. The concept of comprehensive training will be a part of the LEA Application/Plan, and this document will be incorporated by reference. As such, the Comprehensive Training Plan should accompany the LEA Application/Plan and be submitted to the P.L. 94-142 Administrator at the same time.

The 1978 Comprehensive Training Plan is to be used to indicate planned areas of inservice training, participants in the inservice training, and potential sources of revenue for the 1977-79 school years. It is not a fiscally accountable document.

DIRECTIONS FOR COMPLETING THE 1978 LEA COMPREHENSIVE TRAINING PLAN

In completing the 1978 Comprehensive Training Plan document, the following points are to be noted:

- 1) The LEAs involved in the Comprehensive Training Plan should correspond with those LEAs included in the P.L. 94-142 LEA Application/Plan. In some cases, only one LEA will be involved; in other cases, there may be a number of LEAs operating through one fiscal agent.
- 2) It is important that each LEA or combination of LEAs submitting a P.L. 94-142 LEA Application/Plan and this companion document select an advisory committee representing the participating LEAs and the types of persons involved in the training. Under the single line of authority concept, the advisory committee membership should consist of parents and persons from cooperating agencies, such as Day Service Centers, Head Start, Developmental Disabilities Boards, private schools, and other public agencies operating programs for handicapped children. It is suggested that one person be designated as Chairperson of the Advisory Committee. The names, titles, addresses, and phone numbers of the Advisory Committee members should be listed on pages v and vi.
- 3) All planned areas for inservice training should become a part of the Narrative and the Objectives and Activities sections of the P.L. 94-142 LEA Application/Plan. Any federal funds to be used to carry out inservice activity should be included in the budget section of the LEA Application/Plan.
- 4) LEAs are not expected to cover all inservice areas listed in the document under the general headings of M-Team Process and IEP, Mainstreaming, Inter-agency Cooperation/Communication, Parent Counseling and Training, Administration, and Curriculum Review. It is expected that each LEA will cover a minimum of three areas of inservice activity during the 1977-78 school year. The areas should be selected on the basis of demonstrated need and the impact they will have on the type of audiences participating in terms of anticipated outcomes.

The LEA Comprehensive Training Plan Advisory Committee may select any other critical areas of need not suggested in this document for inservice activity and include them in the appropriate tables.

- 5) It is conceivable that some inservice activities already have taken place or are not part of the P.L. 94-142 LEA Application/Plan. If so, please provide the necessary information for those activities which have been conducted and/or those inservice activities planned but not covered by P.L. 94-142 funds in the appropriate columns.

- 6) Under the single line of authority concept, inservice activities sponsored by a local school district should include parents and any other persons who are involved in the education of handicapped children from outside the local public school. In developing inservice activities, it is an acceptable and good practice to tie in with inservice activities from other agencies and, wherever possible, to make the best use of all fiscal resources available, regardless of the funding source.
- 7) When completing the tables in this document, please estimate as correctly as you can the information requested in Columns 1 through 7. The information contained in this document will be providing additional material needed under the heading entitled "Personnel Development" in the Policies and Procedures section of the P.L. 94-142 LEA Application/Plan.
- 8) Column 1 - CHECK PLANNED AREA OF INSERVICE: Place a "check" beside those areas of inservice you are planning or have accomplished for the 1977-78 school year.
- 9) Column 2 - TITLE AND SUB-AREA OF INSERVICE: This is a reference listing. Other sub-areas of inservice may be added at the end of this list.
- 10) Column 3 - APPROX. MONTH FOR INSERVICE ACTIVITY: Please indicate the approximate month in which you plan to hold or have already held this inservice activity.
- 11) Column 4 - APPROX. # OF PARTICIPANTS: Please indicate the approximate total number of persons by types of participants (i.e. 5H, 10M--see codes on reverse side of page 1) who will receive or have received inservice training in each sub-area of inservice activity.
- 12) Column 5 - TYPE OF PARTICIPANTS: Please indicate by letter the different types of participants to be invited to or who attended the inservice activity. The codes for participants are found on the reverse side of page 1. For *Other, please enumerate.
- 13) Column 6 - CHECK IF OPEN TO NON-DISTRICT PERSONNEL: Place a "check" in this column if this inservice meeting is open or was open to persons from outside the district to attend at their own expense.
- 14) Column 7 - APPROX. COST OF INSERVICE: For all inservice activity documented in the Comprehensive Training Plan, please indicate the funding source. All figures should be rounded off to the nearest whole dollar.

COMPREHENSIVE TRAINING PROGRAM MODEL CERTIFICATION

LEA Certification

The fiscal agent, _____,
(insert LEA name) for this Comprehensive Training Model has the general endorsement of the Comprehensive Training Plan Advisory Committee, which is representative of the LEA(s) involved in the P. L. 94-142 LEA Application/Plan, and hereby indicates that this training model is accurate as a planning model.

Signature of LEA Representative Authorized to Submit

TRAINING EVALUATION FORM from South Dakota State Education Agency

This evaluation form is designed to accommodate as many goals as are addressed in the training session by repeating the initial seven items for each goal.

I. Goal A.

This goal was (circle one):	Met(1)	Partially Met(2)	Not Met(3)
Was the content of this presentation:	NEW 7 6 5 4 3		REDUNDANT 2 1
	CLEAR 7 6 5 4 3		UNCLEAR 2 1
	USEFUL 7 6 5 4 3		NOT USEFUL 2 1
Did this presentation:	YES		NO
Involve participants adequately.	7 6 5 4 3		2 1
Hold interest	7 6 5 4 3		2 1
Use suitable techniques	7 6 5 4 3		2 1
Seem well organized	7 6 5 4 3		2 1

II. Goal B

(Repeat items from above)

My Position is:

- (01) _____ Elementary teacher
- (02) _____ Secondary teacher
- (03) _____ Special education teacher/coordinator
- (04) _____ Counselor/Psychologist
- (05) _____ Parent
- (06) _____ Speech therapist
- (07) _____ Administrator
- (08) _____ Title I/Remedial Reading teacher
- (09) _____ Teacher aide
- (10) _____ Student
- (11) _____ Other

My level of expertise prior to taking the workshop was:

HIGH	7	6	5	4	3	2	1	LOW
------	---	---	---	---	---	---	---	-----

OVERALL WORKSHOP EVALUATION

- | | | |
|---|-----------------------------------|------------|
| 1. The organization of the workshop was: | Excellent
7 6 5 4 3 2 1 | Poor |
| 2. The objectives of the workshop were: | Clearly Evident
7 6 5 4 3 2 1 | Vague |
| 3. The work of the leaders was: | Excellent
7 6 5 4 3 2 1 | Poor |
| 4. The ideas and activities process presented were: | Very Interesting
7 6 5 4 3 2 1 | Dull |
| 5. The scope (coverage) was: | Very Adequate
7 6 5 4 3 2 1 | Inadequate |
| 6. My attendance at this workshop should prove: | Very Beneficial
7 6 5 4 3 2 1 | No Benefit |
| 7. Overall, I consider this workshop: | Excellent
7 6 5 4 3 2 1 | Poor |
| 8. Do you feel a need for additional information about the topic? | YES | NO |

The stronger features of the workshop were:

The weaker features were:

Additional suggestions and comments:

Impact evaluation forms are utilized in addition to the above to gather information pertaining to competencies acquired and actually utilized in educating handicapped students. Following is a sample of an impact evaluation form used:

PLEASE RETURN THIS WITHIN ONE WEEK TO YOUR SUPERINTENDENT

1. Have you found the workshop information to be accurate? (circle one)

highly 1 2 3 4 5 not at all

2. Did the workshop information help you implement the Least Restrictive Environment (LRE) concept?

very much 1 2 3 4 5 not at all

3. Did the workshop information help you write IEPs?

very much 1 2 3 4 5 not at all

4. Please rank the following components of the workshop as to their usefulness to you: (1=highest; 6=lowest)

___ Provisions of P. L. 94-142 and South Dakota mandates for local district special education programs.

___ Information on the concept of Least Restrictive Environment (LRE).

___ Informal assessment techniques.

___ Writing goals and objectives.

___ Placement Committee activity.

___ Writing the IEP.

5. How many times have you used information from the workshop in implementing the Least Restrictive Environment concept?

none ___ maybe once ___ several times ___ often ___

6. How many times have you used information from the workshop in writing IEPs?

none ___ maybe once ___ several times ___ often ___

7. Did the information you received at the workshop

___ Reduce anxiety about IEPs and the Least Restrictive Environment?

___ Increase concerns?

___ Make no noticeable difference?

___ Other: _____

8. If the workshop increased concerns, what are they? _____

9. How many times have you provided information gained at the workshop to others, either formally or informally?

10. What changes have you made in your classroom or educational setting as a result of the workshop?

Your position:

☐ elementary teacher

☐ parent

☐ secondary teacher

☐ Title I Teacher

☐ special teacher

☐ aide

☐ counselor/psychologist

☐ student

☐ speech therapist

☐ other

☐ administrator

All evaluation data is stored, analyzed, and used as part of the annual review of the CSPD. Needs assessment surveys can then be developed or revised based upon information derived from evaluation data.

TERMINAL
OBJECTIVE: 6.0

Program for Improving Reading Achievement

Interfacing Essential Competencies and Learner Outcomes
with Developmental Reading

Attitude Feedback Form (AFF)

Directions: Please complete this form, tear it out of this inservice package, and submit it to your instructional leader.

1. Name one or more strengths of this section of the inservice package.

2. List suggestions for improvement or revision of the content of this section of the inservice package.

3. What do you think about the organization and format of the materials of this section of the inservice package?

4. What do you think about the objectives and activities of this section of the inservice package? Please respond by identifying the enabling objectives by their numbers.

5. Please circle or otherwise mark the face corresponding to your overall feeling about this section of the inservice package.

6. In the space below or on the back, please write any personal reactions which you feel are important in terms of assessing the value and worthiness of this section of the inservice.

WEST VIRGINIA DEPARTMENT OF EDUCATION
BUREAU OF LEARNING SYSTEMS
DIVISION OF INSTRUCTIONAL LEARNING SYSTEMS

SELF-EVALUATION RECORD

Name: _____ Package Title: _____

Directions: List under the headings below the tasks which you have completed in this workshop. This Self-Evaluation Record will act as a reference point to measure your progress during and at the end of the workshop. The numbers in the parenthesis refer to the workshop's terminal objectives and enabling objectives.

	Achieved	Date	Partially Achieved	Not Achieved
(1.0) Analyze and synthesize the tasks confronting the beginning reader in relation to the reading process.				
(1.1) Given sentence(s) written in a different symbol system, the participant will change each of them to traditional orthography.				
(1.2) Given sentences containing nonsense words, the participant will infer the meaning of the selection by responding to each question.				
(1.3) After studying several definitions of reading, the participants will summarize a minimum of four major tasks involved in the reading process.				
(2.0) Demonstrate a knowledge of the skills involved in developmental reading.				
(2.1) After studying definition(s) of reading readiness and reading readiness skills plus illustrative examples of each major readiness category contained in the <u>Essential Competencies/Learner Outcomes: K-8</u> , the participant will match each readiness skill with the illustrative examples with 80% mastery.				

Self-Evaluation Record - 2

	Achieved	Date	Partially Achieved	Not Achieved
(2.2) After studying definitions of word recognition skills and illustrative examples of each major skill category contained in the <u>Essential Competencies/Learner Outcomes: K-8</u> , the participant will match each skill with the example with 80% mastery.				
(2.3) After studying the definitions of comprehension skills and examples of each major category of comprehension contained in the <u>Essential Competencies/Learner Outcomes: K-8</u> , the participant will match each skill with the example with 80% mastery.				
(2.4) After reading a selection, the participant will answer each comprehension question in written form and identify each question as to whether it is literal, inferential, or critical comprehension with 80% mastery.				
(2.5) After studying the categories and definitions of work/study skills, the participant will complete each section of a chart in which he identifies the category, source and skill from the <u>Essential Competencies/Learner Outcomes: K-8</u> with 75% mastery.				
(2.6) After studying definitions of recreational reading/personal development skills and examples of school/classroom practices, the participant will identify each skill represented by the practice with 75% mastery.				
(3.0) Analyze a basal reading program.				
(3.1) After examining materials from a basal reading program at the county level and given an <u>Analysis Sheet for a Basal Reading Program</u> , the participant will complete each statement on the form and identify a minimum of one strength and one weakness of the basal program.				

Self-Evaluation Record - 3

	Achieved	Date	Partially Achieved	Not Achieved
(3.2) After examining a scope and sequence for a basal program plus a list of <u>EC/LO: K-8</u> , the participant will differentiate each of the EC/LO's for one or more reading skill areas which are taught in the basal program and the level of skill introduction.				
(4.0) Analyze test data at the building level to determine strengths and weaknesses in the reading skills of learners and to determine curricular implications as it relates to EC/LO.				
(4.1) After studying information regarding student plans and interests from the <u>Interpretation and Use Handbook</u> and the results of a <u>Subject Interest Rating</u> from state/county test data, the participant will analyze the data by completing each statement on a response sheet.				
(4.2) After studying information regarding scholastic ability and achievement from the <u>Interpretation and Use Handbook</u> and <u>Frequency Distribution Scholastic Ability</u> data from state/county test results, the participant will complete each statement on an analysis sheet.				
(4.3) After studying information regarding the <u>National Percentile Frequency Distribution</u> achievement data, the participant will complete each question on an analysis sheet.				
(4.4) After studying information regarding <u>The Right Response Summary and Item Analysis</u> , the participant will analyze the data by identifying the number of items deviating from the national norm and identifying six problem areas.				

Self-Evaluation Record - 4

	Achieved	Date	Partially Achieved	Not Achieved
(5.0) Analyze the organization of a school management plan for reading instruction as related to the EC/L0.				
(5.1) After studying information on learning environments and instructional techniques, the participants will view a video-taped interview or read a script of the same with a school principal and analyze the organization of school management plan by completing each item of the <u>Interview Analysis Sheet</u> .				
(5.2) After completing the <u>Interview Analysis Sheet</u> , the participants will analyze their own school management plan by responding to each item of the <u>School Management Analysis Sheet</u> .				
(6.0) Analyze and evaluate the assessment of reading instruction in a simulated situation.				
(6.1) After studying information on the purposes and characteristics of selected assessment instruments, the participant will identify the use of the assessment instruments in his/her school by discussing each question on a School Self-Analysis Sheet.				
(6.2) Given a video tape recording of a teacher conducting a reading lesson, the participant will critique the reading lesson by responding to each item on a <u>Checklist for the Observation of Reading Instruction</u> .				
(6.3) After observing the reading instruction, the participant will identify follow-up procedures to use with the teacher by listing two areas for discussion.				
(7.0) Evaluate the reading skills inservice packets for teachers.				
(7.1) Given a copy of the <u>Indicators of Effective Inservice: Instructional Packages</u> , the participant will read an inservice packet and evaluate it on the basis of the indicators by responding to each item.

PLANNING, IMPLEMENTING, AND EVALUATING
COMPETENCY-BASED WORKSHOPS

PENNSYLVANIA VOCATIONAL EDUCATION CONFERENCE
TAMIMENT, PENNSYLVANIA
JUNE 25-28, 1978

WORKSHOP ATTITUDE FEEDBACK FORM

DIRECTIONS: Please complete this form and return it to the workshop leader.

1. Name one or more strengths of this workshop session.

2. List suggestions for improvement or revision of the content of this workshop session.

3. What do you think about the organization and format of the materials of this workshop session?

4. What do you think about the objectives and activities of this workshop session?

5. WORKSHOP SESSION LEARNING ACTIVITIES - Indicate the extent of your agreement with the following items by circling SA (Strongly Agree), A (Agree), D (Disagree), or SD (Strongly Disagree).

The workshop session activities:

- | | | | | |
|--|----|---|---|----|
| a. were helpful to meaningful learning | SA | A | D | SD |
| b. were varied enough to suit me | SA | A | D | SD |
| c. afforded me options to master the workshop objectives | SA | A | D | SD |
| d. helped me to learn in an individual format | SA | A | D | SD |
| e. helped me to learn from my peers in small groups | SA | A | D | SD |

6. WORKSHOP SESSION LEADERS - Rate the workshop session leaders on the following items by circling one of the numbers of the scale from 5 (Highly Effective) to 1 (Ineffective).

- | | | | | | |
|---|---|---|---|---|---|
| a. presentation of materials and information in full group setting | 5 | 4 | 3 | 2 | 1 |
| b. instruction in small group setting | 5 | 4 | 3 | 2 | 1 |
| c. overall helpfulness and attitude in aiding you to solve problems | 5 | 4 | 3 | 2 | 1 |
| d. organization of learning materials and learning activities | 5 | 4 | 3 | 2 | 1 |

7. Please circle or otherwise mark the face corresponding to your overall feeling about this workshop session.

8. In the space below or on the back, please write any personal reactions which you feel are important in terms of assessing the value and worthiness of this workshop session.

Appendix G-2
VERMONT

IV. EVALUATION

EHA-B LEAP # _____ - 81

- A. Types of Evaluation - Check those types of evaluation which are included in your local inservice training plan:

_____ immediate reaction to training activity
_____ evaluation of skills acquired
_____ follow-up reaction (one week or more after training activity)
_____ on-the-job usage
_____ monitoring the implementation of the training plan

- B. Measurement Procedures - Check those measurement procedures utilized in the evaluation component of your local inservice training plan:

_____ questionnaire
_____ interview
_____ observation
_____ existing records

- C. Evaluation Questions - Check those evaluation questions listed below which are addressed in your local inservice training plan. (The questions are taken from the evaluation component of Vermont's Comprehensive System of Personnel Development.):

_____ 1. Did the people who need training participate?
_____ 2. Was the information offered that which the participants need?
_____ 3. Did the trainee gain specified skills presented in the training activity?
_____ 4. Are the trainees using the specific skills in their job setting?
_____ 5. How do the trainees feel about the training they have received?

- D. Additional Information (Optional):

INDICATORS OF EFFECTIVE INSERVICE: INSTRUCTIONAL PACKAGES

Currently teachers are being asked to approach their professional responsibilities with a degree of quality never demanded before during the history of professional education. The demand for quality in teaching necessitates that the generalities and platitudes of the past be replaced by precise description. This means that mere talk of progress be replaced with specific change. Therefore, inservice programs must be designed to meet the identified needs of professional educators rather than inservice programs that are externally prescribed. Consequently, the instructional behaviors, programs, and materials developed for inservice education must be systematic, stimulating, psychologically sound, organized, and planned with instructional materials and media to meet the needs and interests of participants.

Therefore, the major consequence criteria of inservice programs focus on the follow-up use of new curriculum materials and updated instructional skills by professional educators in the classroom and the effect of these changes in their performance and pupil learning.

The purpose of *Indicators of Effective Inservice: Instructional Packages* is to provide a guide to the development of inservice instructional packages that will facilitate and enhance the probability of the outcomes of inservice programs on teacher effectiveness and pupil learning.

Acknowledgement is given to the following individuals for their efforts and contributions to the design and development of *Indicators of Effective Inservice: Instructional Packages*:

Lowell E. Johnson, Professor of Education, Fairmont State College

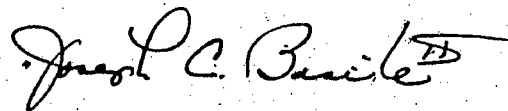

Merrill L. Meehan, Research Assistant Professor, University of Pittsburgh

Glen Cutlip, Curriculum Development Specialist, Reading, Division of Instructional Learning Systems, Bureau of Learning Systems, West Virginia Department of Education

James Snyder, Curriculum Development Specialist, Industrial Arts, Division of Instructional Learning Systems, Bureau of Learning Systems, West Virginia Department of Education

H. G. Priester, Professor of Education, Fairmont State College

Nicholas Hobar, Director, Professional Development Systems, Bureau of Learning Systems, West Virginia Department of Education

Joseph C. Basile, II
Director
Instructional Learning Systems
Bureau of Learning Systems
West Virginia Department of Education

INDICATORS OF EFFECTIVE INSERVICE: INSTRUCTIONAL PACKAGES

Directions: Please read the enclosed inservice instructional package. Then section by section indicate whether this package meets the effective indicators noted below by checking Yes, No, or Unclear in the space provided to the left of each indicator. Please respond to all the indicators.

Yes No Unclear

A. Organization, Layout, Format of the Inservice Package:

- | | | | | |
|---|-------|-------|-------|--|
| 3 | _____ | _____ | _____ | 1. The overall visual appearance of the instructional package is attractive. |
| | _____ | _____ | _____ | 2. The typing format is clear and the type face is consistent throughout the package. |
| | _____ | _____ | _____ | 3. The type face is legible. |
| | _____ | _____ | _____ | 4. The instructional package is paginated from start to finish including appendices. |
| | _____ | _____ | _____ | 5. The instructional package is bound to permit easy page flipping and will lie flat without pages flipping back and forth. |
| | _____ | _____ | _____ | 6. The instructional package includes a cover sheet which reflects a visual theme consistent with the main intent of the package. |
| | _____ | _____ | _____ | 7. The instructional package is visually pleasing to the participant, provides both verbal and visual presentations, and includes proper credits to contributors to the package. |
| | _____ | _____ | _____ | 8. The instructional package includes an array of multimedia techniques and creative use of sequencing techniques and use of colors where appropriate. |
| | _____ | _____ | _____ | 9. There is a logical and uncomplicated sequence to the materials so that the participant can work his/her way through without much difficulty. |

<u>Yes.</u>	<u>No</u>	<u>Unclear</u>	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	22. Are identifiable as cognitive, performance, affective, and/or consequence."
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	23. Consider whether the objectives for the participants provide for future consequences in the classroom.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	24. Are achievable and relevant to the participant.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	25. Are consistent, sequentially ordered, and lead to logical outcomes.
D. Preassessment of the Instructional Package:			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	26. Is diagnostic and guides the participant into the instruction or into the self-evaluation element.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	27. Is the first decision point for the participant and serves as an advanced organizer for the materials that follow.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	28. Creates positive motivation and encourages active participation for the materials that follow.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	29. Contains item(s) related to each objective, is based on criterion levels, and is tied to content, attitudes, and performance.

***Cognitive objectives** are objectives that address the knowledge and intellectual skills/abilities expected of participants.

Performance objectives are objectives that must be demonstrated by participants rather than merely possessing knowledge about them. Performance objectives are:

- a. interactive: objectives performed with learners (e.g., questioning skills)
- b. non-interactive: objectives performed not in the presence of learners (e.g., organization of materials for learning)

Consequence objectives are objectives that address the ability of participants to bring about changes in learners. These objectives focus on the **results** brought about by what a participant "knows" (cognitive) and "does" (performance) when performing a professional role.

Affective objectives are objectives that focus on the attitudes, interests, and values of the participant.

Yes	No	Unclear
-----	----	---------

E. Instruction of the Instructional Package:

- | | | | |
|--|--|--|--|
| | | | 30. Is personalized whenever possible so that the inservice instructional mode matches the learning style of the participant - thus, it is self-paced and adaptive to participant's needs: |
| | | | 31. Has criterion-referenced instruction. |
| | | | 32. Includes a variety of verbal and non-verbal techniques. |
| | | | 33. Is designed so that the inservice leader models the intent of the objectives to facilitate participant outcomes. ("Leader practices what is preached!") |
| | | | 34. Provides for psychological set, meaningful interactions, and closure. |
| | | | 35. Operationally defines the vocabulary essential for utilization of the materials. |
| | | | 36. Includes learning activities that are meaningful to the participants. |
| | | | 37. Is humanistic through the utilization of alternative activities or instructional modes for participants. |
| | | | 38. Considers a time frame for accomplishment. |
| | | | 39. Provides positive reinforcement and acceptance of participant ideas. |

F. Self-Evaluation of the Instructional Package:

- | | | | |
|--|--|--|--|
| | | | 40. Is participant-oriented and participant-completed. |
| | | | 41. Tells the participant if he/she needs further instruction and on which objectives. |
| | | | 42. Is an individual progress report which culminates in a decision of mastery or non-mastery. |
| | | | 43. Measures the instructional package objectives and tells the participant what needs to be accomplished before going on to evaluation. |

Yes	No	Unclear
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

G. Evaluation of the Instructional Package:

44. Is a collaborative venture between the leader and participant and results in objective data. These data are used to assess the reliability, validity, and achievement of the instructional package objectives.
45. Provides evidence to indicate the participant performance in terms of the criterion level of the objectives.
46. Reflects attitudes of the participant toward the leader's instructional effectiveness, the inservice instructional package, and the inservice instructional climate.
47. Is humanistic since the results are used to foster continuous progress toward enriching the participant's professional development and *not* to rank or compare participants against each other.

Overall reactions to the inservice package _____

Appendix H-2

Technical Assistance Summary Sheet

Definitions

Child Identification - Ensures the identification of children with unmet educational needs and referral for appropriate services. Consists of two parallel strategies:

1. Inform the public and other agencies of services available
2. Locate children in public school programs who are receiving inadequate or no special services.

Individual Assessment - Information gathered to facilitate the following three decisions:

1. Presence or absence of a handicapping condition
2. The students' need for special education services
 - a. instructional services
 - b. related services
3. Specific instructional recommendations for identified learning needs.

IEP Development - Includes annual goals, short-term objectives, descriptions of instructional programs and the instructional environment, and procedures for evaluating the student's achievement of goals and objectives.

Individualized Instruction - Implementation of activities designed to assist the student in accomplishing the goals and objectives of the IEP. Two aspects are:

1. The instructional program and curriculum content
2. The most appropriate instructional environment

Related Services - Non-instructional services which enable the student to accomplish the goals and objectives of the IEP.

1. Equipment and transportation
2. Services provided by educationally certified personnel, e.g., individual assessment, guidance and counseling, and school psychological services
3. Services provided by noneducationally certified personnel who are otherwise professionally licensed, e.g., medical or psychological evaluation, physical therapy, occupational therapy, orientation and mobility training, audiological or visual evaluation, and recreation services

IEP Review - Systematic evaluation of a student's progress resulting from special education instruction and related services. Involves collecting and analyzing data from the ongoing assessment and recording student performance in both instructional and related services.

Other - This category is quite varied and includes the following types of requests:

1. reference questions not related to topics above
2. contact people for professional organizations
3. certification requirements
4. legislation
5. consultant information not related to any topic areas above
